

# Lodging - U.S. RevPAR -6.7%; Calendar shift/tough comp due to Xmas/New Year's

What helped the prior week hurt last week (Xmas to a Monday).

#### What's Incremental To Our View

Overall U.S. RevPAR was -6.7% Y/Y for the week ending 12/30/2017, per STR, down from the prior week's result of +7.6%. (2-year stacked RevPAR was -4.1% vs. +3.6% in the prior week.) Luxury (-1.0%) was the "strongest" chain scale. Within Upper Upscale & Luxury class hotels, Group (-18.6% vs. +31.1% prior week) was softer than Transient (-6.8% vs. +1.1% prior week). Last week was negatively impacted by the Christmas/ New Year's calendar shifts. Next week will be an easier comp due to New Year's Eve. There was continued strength in hurricane-impacted markets.

Last week's results were largely impacted by the y/y calendar shifts of Christmas and New Year's Eve (this explains why the prior week's results were very positive and why next week will also have an easier comp). Thus, last week's results were as expected. In 2016, New Year's Eve fell on a Saturday night (RevPAR was +86.7% that day). In 2017, the holiday fell on a Sunday night and thus the demand benefit should be felt in next week's data set. Our semiannual Fall Calendar Shift RevPAR Roadmap report provdes additional granularity.

- Christmas Day RevPAR (Monday) was -15.2% and December 26 was -10.5%.
- Group RevPAR (-18.6%) was especially weak but we note that this is a holiday week and group demand (particularly corporate) is limited.
- As noted below, hurricane-impacted markets saw continued extreme strength relative to the industry average.

As a rule of thumb when analyzing the weekly data, if Group results are abnormally strong or weak, which they were last week, there is a holiday shift going on.

For the month of December, we estimate that full-service branded domestic hotels (the typical Hilton [HLT, \$80.85, Buy], Hyatt [H, \$74.70, Hold], or Marriott [MAR, \$136.45, Hold] hotel) will finish at approx. +1-2% (our previous estimate was +2-3%). We estimate that the overall industry will finish approximately +3-4% (in line with prior estimate). Please note that reported monthly results include hotels that are not in the weekly data set.

C. Patrick Scholes 212-319-3915 patrick.scholes@suntrust.com

Bradford Dalinka 212-303-4190 bradford.dalinka@suntrust.com

Gregory J. Miller 212-303-4198 gregory.j.miller@suntrust.com

Jeffrey Stantial 212-590-0993 jeffrey.stantial@suntrust.com

#### What's Inside

Weekly STR results and analysis

For the quarter, we estimate that full-service branded domestic hotels will finish at approx. +3-4% and the overall industry will finish approximately +4-5%.

#### RevPAR details:

- Luxury was the "strongest" chain scale: Luxury RevPAR (-1.0%), Upper Upscale (-9.0%), Upscale (-6.5%), Upper Midscale (-6.0%), Midscale (-5.9%), and Economy (-3.5%). Independent hotels (-8.6%) underperformed headline U.S. RevPAR.
- Within Upper Upscale & Luxury class hotels, Group was softer than Transient (unsurprisingly, this was a holiday week): Transient segment (individual business and leisure travelers) RevPAR was -6.8% (vs. +1.1% last week) and Group segment RevPAR was -18.6% (vs. +31.1% last week).
- LA (-0.7%) was the "strongest" of the top 5 markets: Boston (-8.7%), Chicago (-17.9%), NYC (-10.7%), and D.C. (-14.1%).
- Other relevant markets:
  - San Francisco was down: RevPAR was -11.5% vs. -0.3% last week. We anticipate weak y/y results in San Francisco for 4Q due to the renovations at the Moscone Center (although less bad than 2Q/3Q).
  - Texas results were mixed: Dallas RevPAR was -8.9% (vs. +13.0% last week). Houston RevPAR was +27.9% (vs. +56.7% last week).
  - Other hurricane-impacted markets continue to see strong performance: Miami (+7.5% vs. +11.9% last week); Orlando (+9.5% vs. +13.5% last week).

The lodging and leisure stocks: As we have written in our last several reports, while the RevPAR trends are uninspiring, the good news is we believe companies are likely not going to miss their uninspiring and intentionally conservative guided ranges. We believe as it relates especially to the C-corps, "Stable" is the new "Good". That said, 2018 will likely still see a gradual deceleration in RevPAR growth rates from 2017's levels and this will likely be more negative for the hotel REITS as costs are rising faster than revenues. The good news for the hotel REITS is that their dividends are attractive, in our view, and should be sustainable over the next year. We believe an unwillingness to have to go against a 6%+ dividend yield has kept investors from being overly negative (potentially shorting) the hotel REITS.

SunTrust Robinson Humphrey (STRH) seeks to make all reasonable efforts to provide research reports simultaneously to all eligible clients. Reports are available as published in the restricted access area of our website to all eligible clients who have requested a password. Institutional investors, corporates, and members of the Press may also receive our research via third party vendors including: Thomson Reuters, Bloomberg, FactSet, and S&P Capital IQ. Additional distribution may be done by sales personnel via email, fax, or other electronic means, or regular mail.

For access to third party vendors or our Research website: https://suntrustlibrary.bluematrix.com/client/library.jsp

Please email the Research Department at STRHEquityResearchDepartment@SunTrust.com or contact your STRH sales representative.

#### The rating system effective as of Oct. 7, 2016:

#### **STRH Rating System for Equity Securities**

SunTrust Robinson Humphrey (STRH) rates individual equities using a three-tiered system. Each stock is rated relative to the broader market (generally the S&P 500) over the next 12-18 months (unless otherwise indicated).

**Buy (B)** – the stock's total return is expected to outperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

**Hold (H)** – the stock's total return is expected to perform in line with the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

**Sell (S)** – the stock's total return is expected to underperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Not Rated (NR) – STRH does not have an investment rating or opinion on the stock

**Coverage Suspended (CS)** – indicates that STRH's rating and/or target price have been temporarily suspended due to applicable regulations and/or STRH Management discretion. The previously published rating and target price should not be relied upon

STRH analysts have a price target on the stocks that they cover, unless otherwise indicated. The price target represents that analyst's expectation of where the stock will trade in the next 12-18 months (unless otherwise indicated). If an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of STRH Research Management not to assign a target price; likewise certain stocks that trade under \$5 may exhibit volatility whereby assigning a price target would be unhelpful to making an investment decision. As such, with Research Management's approval, an analyst may refrain from assigning a target to a sub-\$5 stock.

# **Legend for Rating and Price Target History Charts:**

B = Buy

H = Hold

S = Sell

D = Drop Coverage

CS = Coverage Suspended

NR = Not Rated

I = Initiate Coverage

T = Transfer Coverage

# The prior rating system until Oct. 7, 2016:

3 designations based on total returns\* within a 12-month period\*\*

· Buy – total return ≥ 15% (10% for low-Beta securities)\*\*\*

- · Reduce total return ≤ negative 10% (5% for low Beta securities)
- · Neutral total return is within the bounds above
- · NR NOT RATED, STRH does not provide equity research coverage
- · CS Coverage Suspended
- \*Total return (price appreciation + dividends); \*\*Price targets are within a 12-month period, unless otherwise noted; \*\*\*Low Beta defined as securities with an average Beta of 0.8 or less, using Bloomberg's 5-year average

SunTrust Robinson Humphrey ratings distribution (as of 01/04/2018):

Coverage Univer	se		Investment Banking Clients Past 12 Months						
Rating	Count	Percent	Rating	Count	Percent				
Buy	427	61.09%	Buy	151	35.36%				
Hold/Neutral	269	38.48%	Hold/Neutral	65	24.16%				
Sell/Reduce	3	0.43%	Sell/Reduce	1	33.33%
