

CONFERENCE FOR DESIGN PROFESSIONALS

March 1, 2012
Georgia World Congress Center
Room C302
Atlanta, Georgia

Design, Safety and Installation of Hearth Systems and Outdoor Rooms

CEU/LU
Approved

- Would you like to know **MORE** about selecting, positioning and installing fireplaces – in the home and outside?
- Would you like to know **MORE** about designing an outdoor room systematically and with the latest concepts and products?

At the beginning of March, the Hearth, Patio & Barbecue Association will hold its annual Expo in Atlanta. It is expected that approximately 8,000 attendees will be there, including 300 manufacturers of fireplaces, stoves, mantels, outdoor furniture, outdoor structures and all items that form the outdoor kitchen, such as barbecues, sinks, refrigerators, infrared heaters, televisions, pizza ovens, etc.

All will be showcasing their new product introductions.

Into this dynamic environment we have scheduled a day-long Conference for Design Professionals (Architects & Interior/Exterior Designers) that includes CEU approved courses to facilitate specifying high-end fireplace systems and designing outdoor rooms with the latest products, as well as time to walk the show, view new products and talk to the experts who have created them.
