Michele@masonryassocga.com

WHO SHOULD ATTEND:

- ARCHITECTS
- ENGINEERS
- INSPECTORS
- CONTRACTORS
- MASONRY INDUSTRY PROFESSIONALS

The Masonry Construction Special Inspector Certification for 9 hour Course Completers will be issued by the Masonry Association of Georgia, and is in effect for FIVE (5) years.

If you are already certified, the recertification will be granted once you complete the 9 hour course.

Masonry construction is one of the most cost-efficient and durable types of construction available. When everyone involved in masonry construction is knowledgeable and confident, the project is seamless.

This training will assist masonry construction and design professionals to understand the most current building code requirements and procedures.

Space is Limited!
