

WEEKEND AT THE BEACH!

ST. SIMONS ISLAND/ GOLDEN ISLES CHAPTER, AMERICAN INSTITUTE OF ARCHITECTS
PRESENTS A SEMINAR

“Brick Basics”

Brick has been around for centuries and is used in many types of construction projects. We will review some of the recent trends in building with brick, updating standards for masonry products and ancillary materials. We will learn of problems that occur in brick construction, how to avoid them and prevent them from happening on your projects.

Earn AIA Learning Units and State Required Continuing Education and spend the Weekend at the Beach!
