Events Coordinator for Surge Suppression
Incorporated and Senior Member IEEE*

**IEEE Sponsor:
Northwest Florida Section IEEE**

**Corporate Sponsor:
Surge Suppression Incorporated**

**.5 CEU Certificate issued by
IEEE Continuing Education**

**Design, Application
& Installation**

- What are the industry standards for Surge Protective Devices (SPDs)?
- What are the two types of surges, where do they originate, and how does each affect equipment?
- What are the differences in the two types of SPD design and why do you need both?
- What's in a spec sheet and what does it really mean?
- How critical is installation of SPDs?
- What kind of results can be achieved? Some examples are discussed.
- Live performance testing of listed SPDs from several leading manufacturers.
- Continental breakfast and lunch provided.
