Our success in the contracting business depends on how well we manage risk, starting with the bid and ending with the job closeout. The objective of the owner/CG/CMs contract and project execution is to transfer as much risk as possible to the contractor. Our job as PMs executing the work is to ensure we mitigate these risks. This seminar will provide insight on reducing risks and avoiding the need to claim to recover costs.

Confirmation will be sent prior to class date.

Please check here if you require accommodations under the American with Disabilities Act

MCA Chicago occasionally videotapes, records or photographs at educational offerings for the purpose of responsibly promoting the association and/or attendance at future programs. By attending this class you agree to allow us to use your name and likeness for such purposes
