you require accommodations under the
American with Disabilities Act

MCA Chicago occasionally videotapes, records or photographs at educational offerings for the purpose of responsibly promoting the association and/or attendance at future programs. By attending this class you agree to allow us to use your name and likeness for such purposes

Remote

•In a PivotTable report, each unique value in a column can be flipped into a column header, and a summary of values can be tabulated.

•The Solver function allows you to designate a new final value in a calculated field, and Excel will adjust the related cells to give you your desired result. This is a great tool for budgeting!
