

CONTRACTOR SAFETY FORUM

ACTIVE SHOOTER PREPAREDNESS | MARCH 3, 2016

There is an average of one active shooter incident **every three weeks** in America.

69% of those incidents are over in **five minutes or less**.

36% of active shooter incidents are over in **two minutes or less**.

60% of incidents are **over before police can arrive** on the scene.

70% of incidents occur in an educational or **business environment**.

There were **1,043 casualties** of active shooter situations between 2000 and 2013.

Active shooter incidents have been **increasing annually** since 2000.

All employees should know how to respond to an active shooter situation in the safest, most effective way possible. Having a plan in place can be the difference between life and death in active shooter scenarios.

Presenter: Steve Stetson is the manager of safety services at DSP Insurance Services. Steve has over 20 years of safety experience and has been an OSHA instructor since 1996. Some of his other concentrations include safety training, OSHA compliance, ergonomics, safe driver training, and jobsite evaluations. Stetson is a member and frequent speaker of Society of Casual Safety Engineers and has BSEET in Electronics Engineering from DeVry Institute of Technology.
