

CECO-CHICAGO AND TRIBCO TO MERGE AS ONE

Friday, December 4th, 2015

Changes will further enhance services for Chicago clients

Ceco Concrete Construction is a national sub-contractor with revenue exceeding 300 Million and 20 offices nationwide. Tribco Construction Services is a 40 year old Chicago concrete contractor. Both have operated in Chicago for decades with rich histories made up of diverse project successes. In 2005, Ceco acquired Tribco while both continued to operate independently within Chicagoland. Each firm leveraged the resources of the other towards continued growth – overcoming a deep recession, evolving technological demands, and high safety standards.

Now is the time to capitalize on the combined strengths of Ceco's Warrenville, IL-based office and Tribco's Chicago office. Effective 1/1/16 both firms will merge Chicago operations under the Tribco banner. The result will bring together deep experience across all elements of concrete building construction. The strong bonding, financial, safety, engineering and management strength of each firm will remain un-touched. Combining resources will allow the new Tribco to increase capacity, improve client responsiveness, and elevate clarity as a single resource for clients. The merger will enhance both Ceco-Chicago and Tribco's commitments to existing clients.

Tribco will move forward with both Warrenville and Chicago locations serving the Chicagoland market. Ceco's operations outside of Chicago's metropolitan area will remain Ceco – including those in Iowa, Wisconsin, and Northwest Illinois.

In the coming weeks we will visit with clients, suppliers, and subcontractors to ensure all questions and concerns are addressed. In the interim please don't hesitate to contact us at the numbers below. We look forward to strengthening our relationships as we transition into a new chapter for Tribco and Ceco!

Sincerely,
TRIBCO CONSTRUCTION SERVICES
