

**Fox Valley AGC, Builders Association and AGC of America
are pleased to offer a FREE seminar supported by a Susan Harwood Federal Grant ...
Safety Training for the Focus Four Hazards in Construction**

Program Description:

Construction workers make up approximately 4 percent of the country's work force, but account for nearly 20 percent of all job-related fatalities each year. The construction focus four hazards continue to account for the greatest number of preventable fatalities and serious injuries in the construction industry. AGC of America is pleased to offer this **FREE OF CHARGE** one-day training program based on OSHA standards and best practices to answer the need for quality training within the industry.

Who Should Attend?

- Company Officers
- Managers
- Project Managers
- Supervisors
- Foremen

What Will I Learn?

- Common Exposures to the Focus Four Hazards
- OSHA Standards and Best Practices Related to the Focus Four Hazards
- Proper Selection of Trenching and Excavation Protective Systems
- Training Requirements
