

Portland Ecoroof Symposium

www.portlandoregon.gov/bes/ecoroofpdx

Wednesday, May 21, 2014

8:30 A.M. – 6:00 P.M.

World Trade Conference Center, 2WTC
121 SW Salmon Street, Portland, OR

Cities across the world are investing in green roofs to combat urban challenges. Portland is a leader in green roofs, and we've learned a great deal about their benefits for managing stormwater and greening our city. And we're learning more about the true costs and benefits of green roofs and how they offer a better return on investment. On May 21st, join the City of Portland for a series of presentations and case studies that present current research examining the green roof bottom line.

Who should attend? Architects, designers, developers, building owners and managers, planners, landscape architects, engineers, students, researchers, and green roof professionals

What is the cost to attend? Registration is \$50. Space is limited. Advance registration is required.

To register: Go to www.portlandoregon.gov/bes/ecoroofpdx to reserve a space.

Continuing education credits available.

KEYNOTE

*30 Years after The Granite Garden:
How Far Have We Come?*
