The process through Simply Voting was easy to set up and feedback from members also included ease of use. This will be a very valuable way for us to reach out to members for feedback on upcoming issues as well as next year's Board of Director and Chapter Executive Elections.

This year is now an election year. We will be seeking out nominations for the Vice President of the Board of Directors, one representative to sit on the Board of Directors from each Chapter as well as all Chapter level executive positions. Each Chapter will be reviewing this at their fall meetings. Please consider becoming involved in your professional association. The website will be updated soon with the election process. Should any position require a vote we will be using the same electronic program that was used this year for the Constitutional vote.
