

Emergency Response Assistance Canada Equipment and Training Prop Needs

Emergency Response Assistance Canada (ERAC) is a not-for-profit corporation created by industry for industry. As a co-operative emergency preparedness and response organization, ERAC is instrumental in assisting hundreds of oil and gas and transportation organizations requiring Emergency Response Assistance Plans (ERAPs).

ERAC is currently working on a project to develop more ERAC-owned equipment caches to assist Plan Participants in keeping community and clients safe under any circumstances. The equipment caches will be strategically placed across Canada and could be transported to any incident or training facility when needed. See below for a complete list of needed equipment.

ERAC is reaching out to organizations to request donations of any unwanted, surplus or new equipment that will assist with the ongoing development of ERAC equipment caches. Not only will your equipment donation support ERAC and industry for emergency response and preparedness, it will also provide a tax benefit. ERAC can issue a letter acknowledging receipt of the goods after the donation has been made, however, they are unable to issue official tax receipts as they are a not-for-profit organization and are not a charity organization.

For any questions, please contact Spencer Buckland directly at 403-543-6090 or by email at spencer.buckland@erac.org.

Equipment and Training Prop Needs

1. 5 - Panasonic Toughpad tablets
Safety equipment - Calibration equipment (gas), cold weather gear, winter CSA boots, Nomex
2. coverall, boots, hard hat, gloves, safety glasses, TA mandatory equipment and tools
3. 4 - new laptops, monitors and equipment - to replace old/broken ones and new staff
4. 8 - industrial 2-way radios in the 400 band
5. 3 - Gorman Rupp, Spark-a-Shield pumps
6. Bunker gear for LPG/flammable liquids level 1 non-ERAC trainers
7. LPG Equipment Cache
8. Housing and Bottom Outlet Valve (BOV) for training

9. Pumps, hoses, foam, ULC bench test for firefighter foam/fire suppression trailers
10. Ammonia gas detection equipment - 3 units
11. LPG Hoses; (10) LPG rated, 25ft, 2" steel acme fittings, 1 male 1 female end
12. Snappy Joes; (8) Fisher type N550, 2inch, manual activation
13. Valves; (4) 2inch, steel acme fittings
14. Sight Glass flow indicator (2) 2"
15. Male Male Acme adaptors (4)
16. Male ACME to male NPT adaptors (4)
17. Male ACME to female NPT adaptors (4)
18. Tripod pipefitters work bench
19. Pressure gauges ¼" 0-30, 0-60, 0-100, 0-300, 2 each
20. Earth Resistance tester, (Megohmmeter)

21. Tank truck fittings
 - Tank truck cut away MC 307 - 407
 - Dome cover assembly with vapour recovery latch style
 - Tank truck cut away MC 312 or 412
 - Cable actuated safety valve
 - Air actuated safety valve
 - Emergency shut off device - tank truck
 - Vapour recovery vent system - Dome
 - Internal safety valve
 - Fusible plug - emergency shut off
 - BOV Shear section piping system
 - Dome cover assembly with vapour recovery strong back style
 - Dry lock discharge valves
 - Vapour recovery connections
 - API valves - spring loaded with covers

22. Rail car fittings
 - TC 111 Fittings & Manway
 - TC 117 Protective housing
 - TC112 Protective housing
 - TC 111 or 117 BOV assembly
 - TC 111 Safety Valve
 - Steam heating fittings
 - PRVs
 - Damaged tank (Dents/Cracks) cut-outs

23. Intermodal bulk container

- Manway assembly with PRD Complete
- Bottom outlet valve assembly - Complete with internal thermometer
- Emergency internal shut off control handle
- Steam heating fittings
- Filling Ports - Top
- N2 Air line pad connection
- Fusible shut off connection , hydraulic system

24. LPG 331 (bobtail)

- Bobtail tank fitting housing
- Bobtail hose reel
- Valve assembly
