

Hello!

Do you wish to participate in the University of Winnipeg's Co-operative Education program? It is not too late to submit a job posting for the Spring 2015 term.

Students from the following areas have registered for the Spring term co-op program:

- Marketing
- International Business
- Accounting
- Business and Administration
- Information Systems
- Applied Computer Science

Your co-op job posting will be sent to all registered students in the program. I will collect the resumes and cover letters of the applicants and forward to you on the deadline you specify. You then select and contact the applicants you wish to interview for the position. The spring term runs May – August requiring a minimum of 14 weeks of full time employment.

Because the positions must be focused in the student's area of study, the Co-op program offers you the opportunity to fill an employment need by a highly motivated employee.

Please contact l.bailey@uwinnipeg.ca for more information or to submit a posting.

Sincerely,

Lelita Bailey, MBA
Program Manager
