

## Pierre Boucher

Throughout his career, Pierre has continually ascended to leadership positions and contributed to the growth of the various organizations for which he has worked. He has a proven ability to lead while working as an integral part of a team toward common objectives.

Pierre has an excellent track record in governance having drafted or updated a wide variety of documents such as by-laws, HR manuals, operations manuals, internal controls manuals, and terms of reference for boards and committees. He has also facilitated strategic planning sessions and drafted corresponding implementation plans.

Most recently, Pierre held the position of President of Canadian Construction Innovations (CCI), an institute whose mandate is to instill a culture of research and innovation in the Canadian construction industry. In this role, he was responsible for the overall promotion of CCI's objectives and the efficient delivery of the institute's projects, programs and services.

Prior to joining CCI in August 2014, Pierre was Chief Operating Officer of the Canadian Construction Association (CCA) where he was responsible for the day-to-day operation of the organization. Over the course of his career at CCA, he assumed responsibility for many portfolios, including the Road and Infrastructure Program (TRIP/Canada), the Gold Seal Certification Program, the Canadian Design-Build Institute, the environment, industry human resources and exports committees as well as the Trade Contractors Council.

Pierre also took the lead in creating the Institute for BIM in Canada.

Between 2001 and 2005, Pierre was President of the Canadian Printing Industries Association (CPIA). His principal areas of responsibility included advocacy, lobbying, program development, and communications.

Pierre has also served on government committees, including the committee responsible for the development and promotion of the Canadian Industry Program for Energy Conservation (housed within Natural Resources Canada) and the Regulatory Advisory Committee for the development of the Canadian Environmental Assessment Act.

Pierre has a graduate degree in International Development & Cooperation from the University of Ottawa. He speaks French, English and Spanish.

**“SUCCESS CAN ONLY  
BE ACHIEVED THROUGH  
HARD WORK,  
COMMITMENT AND THE  
THIRST FOR  
KNOWLEDGE.”**
