“Creating a fair, open and transparent system”

Clive Thurston is the OGCA President since 2002 overseeing the day to day operations, working with members to address contentious issues on contracts and tendering, speaking at many industry events on various topics such as Ethics in Construction, Construction Law, and Bidding and Tendering.

STRATEGIC - Contractors and owners reactions to Vendor Performance Programs, Exclusionary Clauses and Social Responsibility. How ethics is now one of the most talked about yet misunderstood issues in construction today.

“Normal is broken – An Introduction to Integrated Project Delivery (IPD)”

Marcus Gillam is the president of Gillam Group Inc., a progressive construction management organization based in Toronto, Ontario, that specializes in medium-sized projects in the industrial, commercial, institutional and residential sectors.

TECHNICAL - Innovation delivering a new form of collaboration, integrated project delivery has the power to change the entire construction industry. IPD is a delivery model designed to unlock the true power of collaborative planning, lean construction and technologies like BIM.

“5 Communication Tips to Build a Stronger Project Team”

David Barrett is the National Program Director for Project Management and Business Analysis with the Schulich Executive Education Centre, Schulich School of Business, York University. He has published four books: The Power of The Plan, The Keys to Our Success, the Business Analyst Book of Mentors and Leadership Perspectives.

MOTIVATIONAL - Communicating well with our project team, stakeholders and others is essential to a projects success. This session will offer 5 tips that we can all use to help us communicate better with our team members throughout our projects.
