

## Lead Design Engineer

Morris Industries is a worldwide manufacturer and distributor of air seeding, tillage and hay hauling equipment.

We currently have an exciting opportunity for a Lead Design Engineer to join our Research and Development team in Yorkton, SK.

This individual is responsible for new product design. A Degree in Mechanical or Agricultural Engineering is preferred, however other relevant education may be considered. Must have 5-10 years of experience. Must possess a good knowledge and understanding of current farming practices and farm equipment and also be familiar with current techniques and trends in farming methods. Excellent communication skills, both oral and written are required. Must possess a good working knowledge of current CAD and FEA software programs. Must have or be pursuing P.Eng. status in the province of Saskatchewan.

Come join our team!

### ***We Offer:***
