

ECI Announces Addition of Larry Weis as VP – Engineering and Construction

ECI is pleased to announce the addition of Mr. Larry Weis to our corporate staff as our new Vice President of Engineering and Construction. Larry brings with him over 36 years of experience in the electric and water utility industry with 28 consecutive years in the position of General Manager/CEO for four electric utilities, two of which also operate irrigation and drinking water businesses. Larry is an experienced leader and results-oriented executive who clearly and logically can communicate complex utility issues. He has a wealth of demonstrated strategic leadership as witnessed during his tenure at each of the electric utilities he managed including two of the largest municipals in the country.

Larry has direct experience financing, constructing and operating hydroelectric, gas, coal and nuclear generation projects. He has transitioned the utilities he has led to diversify their generation using renewable energy resources; leveraging his expertise in risk management and fuel supply strategies. Larry is known for his operational knowledge of the distribution and transmission business and the successful deployment of new technologies. Externally, he has provided strategic leadership in state and national government relations and regulatory affairs and has direct experience in numerous FERC licensing issues and regulatory matters.

Larry has been active in many industry associations and has served as a Trustee and past President of the Northwest Public Power Association (NWPPA), President-Elect of the Texas Public Power Association (TPPA), and as a Director, Trustee, or Board Member for multiple Associations and Agencies nationally, regionally and at the state level. Larry earned a B.S. from the School of Science and Engineering at Western Washington University and his BSEE at Seattle University. He can be contacted at our corporate office in Billings, Montana as shown below and will also operate from his homes in Victoria, Texas, and Priest Lake, Idaho.
