PRESS RELEASE

World-Wide Launch of **NZD ISO FLUSH™ ISOCYANATE CLEANER**,
SURF X FLUSH 2000™ and other Non-Hazardous Flushing & Immersion
Cleaning Products (Resins & Adhesive Removers) Manufactured BY
Global Specialty Products – USA, Inc.

Mount Holly, NJ April 1, 2015: [Global Specialty Products USA, Inc.](http://www.gsp-usa-inc.com) has Launched its plan to market the Engineered Solvent Products outside the United States including Canada, Mexico, Puerto Rico, Virgin Islands, South America, Europe and Asia.

Effective immediately **Global Specialty Products USA, Inc.**, a U.S. based manufacturer has launched its world-wide distribution plan to enter into a distribution agreement with a number of domestic and international distributors. The plan entails the rights to distribute and resell Global Specialty Products-USA, Inc.'s environmentally safe, Reduced VOC, non-Hazardous Flushing & Immersion Cleaning - "**PROPRIETARY**" Products for the removal of liquid, semi-cured or cured Isocyanate, Polyurea and Polyurethane Spray Equipment, as well as, cleaning Industrial Resins such as Polyester, Vinylester and Epoxy Resins and Fiberglass. The applications are for the removal of Isocyanate and Urethane Foam deposits and buildup, Hot Melt Adhesives and all Industrial Resins from Feeding Lines / Hoses, Spray Guns, Mixing Heads, Gear Pumps, Troughs, Side Walls, Conveyor Parts, Hot Melt Roller Coaters, Foam and Resin Cutting Devices, Holding Tanks, Mixing Equipment, Injection Mold Equipment, etc.

NZD ISO FLUSH™ - Isocyanate Cleaner and **SURF X FLUSH 2000™** are not short on vision. That is to say, when it comes to removing load of Liquid/Crystallized Isocyanate or cured Polyurethane Foam and other resins from the spray and processing equipment, customers can expect these advanced, proven and eco-friendly "**Recyclable**" products to effectively fulfil their cleaning needs and environmental standards.

NZD ISO FLUSH™ - Isocyanate Cleaner, **SURF X FLUSH 2000™** and related products are now available through a number of key distributors-partners located in New England, Georgia, California and Florida. The list of authorized distributors are available on <http://gsp-usa-inc.com/urethane-foam-removers/>. The list will be continuously updated as other national and international distributors come on-board. Currently, products are available in (1 and 5 Gallon HDPE UN-RATED Pails, 55 Gallon UN-RATED STEEL Drums, as well as, **GO GREEN™ Saturated WIPES**. The company is working to have these products packaged and available in Aerosol Cans "Dispensed Spray Cans" during 4th quarter 2015.

Through the network of distributors, **Global Specialty Products – USA, Inc.** will be able to strengthen its presence in various markets including the Polyurethane Foam Machinery and Spray Foam Equipment; Marine; Yacht Manufacturers; Fiberglass Pipes and Corrosion Tank Manufacturers; Roofing; Plastic and Epoxy Injection Mold and many other related markets. We are confident that these distributors' extensive presence in the market along with local warehousing, distribution and network of customers throughout the region will help us leverage our position in the related markets; says Davood Faghani, the Managing Director of the company.

After years of research and development, the company's first generation products have gone through rigorous tests, plant trials and have been proven in the field to be excellent replacements for hazardous solvents with great features and benefits. This has led the company to expand its national distribution network year after year, as well as, increase international demand. "GSP USA" has also developed proprietary and new generation environmentally safe, Reduced – Zero VOC, non-Hazardous, non-HAPS, non-Flammable "GREEN" Soy-based products for multi-purpose industrial cleaning applications. In addition, the company is also in the process of developing **ECO-FRIENDLY Mold-Release products**.

Global Specialty Products – USA, Inc. is committed to a cleaner environment by developing advanced quality industrial products anchored with strong technical and customer service support. All products are manufactured in the U.S. and all raw materials suppliers are carefully selected for their high quality ingredients.
