CAREER OPPORTUNITY

GIS TECHNICIAN

MORRISTOWN UTILITIES
441 WEST MAIN ST. MORRISTOWN, TN 37814
3/7/2017

Morristown Utilities is currently seeking a driven individual to fill the role of a GIS Technician. In this role, you will have the opportunity to showcase your skills, as this role will be focused on mapping of electrical facilities for the utility and providing backup support to the dispatcher.

To be successful in this role, basic knowledge of GIS technology and software is essential. You also must be able to participate in special projects and possess knowledge of ESRI products, CAD mapping, and SQL database.

This position requires a minimum of an Associate degree in GIS, ESRI, CAD, or any related programs or equivalent number of years of experience.

This is an excellent opportunity to grow your skills in the utility industry while making an immediate impact and contribution to the community and to the business. If you are a self-motivated individual with a commitment to serving our customers, you are strongly encouraged to apply.

How to apply

All career opportunities require a completed application form. You may attach a resume. The Adobe Acrobat application form on our Web site may be printed out. The Web site address is www.morristownutilities.org. Forward the completed application along with the resume by email, fax, or by mail to the address below. MUS only accepts employment applications when job opening is available. Applications will be available through **04/08/2017**. EOE/M/F/D/V; TN DRUG FREE WORKPLACE; E-VERIFY.
