1. Your name: Jeremy Hamilton
2. Company name: Senex Law, PC
3. Number of years working with apartment industry: 14 Brilliant Years
4. What does your company do? Essentially, we help clients with their evictions and collections work, BUT, we do it very differently than you would expect. Years ago, we set out on this incredible journey to redefine multifamily law and change the status quo in our industry. Today, we've grown into partnerships across three states, launched a national association for multifamily law (NAMFL.com), and built our own software with integrations for Yardi, MRI, Jenark, Appfolio, PropertyWare, and others.
5. Describe a typical day at your job: As I'm sure you all know, there is never a dull moment in Multifamily legal! As COO, I am responsible for many things – most important of which, is ensuring we keep our promises. Fortunately, I'm surrounded by an impressive team of people who work harder than you can imagine to make this happen.
6. Where did you grow up? My father served in the US Navy, so I learned to crawl, talk, walk, and run in Connecticut, Puerto Rico, and South Carolina. Ultimately, he retired in Hampton Roads, and I spent my formidable years growing up in Virginia Beach until I moved out to Chesapeake and now call home.
7. Education: Computer Engineering - ODU
8. Family: My beautiful and amazing wife Kim, Daughter – Tori (20), Son – Hayden (12), Daughter – Samantha (10), Grandson – Jayce (7 months), Dog – Shaggy, Birds – Flip & Flop and their 4 soon to be named eggs (apparently Flip or Flop is a female and I mislead my daughter when I told her they were just dancing in their cage).

9. What do you do in your free time? Crossfit before work, coach my daughter Samantha's U10 advanced soccer team after work, and then cheer on the sidelines every weekend.

10. What's one thing about you that few people know? I spoke Spanish before I spoke English, and then quickly lost proficiency when our family moved to the United States. This, however, doesn't seem to matter to my wife's family since they still refer to me *affectionately* as 'Taco' at all of our family gatherings.
