

CTE NEEDS YOUR EXPERTISE

Help prepare the workforce of tomorrow

Career and Technical Education (CTE) conducts annual course reviews to ensure students attain knowledge for high-demand, high-skill, and high-wage careers.

Business and industry participation on a curriculum review committee helps to:

- ♦ determine what technical knowledge and employability skills students require in order to meet workforce expectations in a global economy;
- ♦ identify classroom equipment and workforce credentials that meet industry standards; and
- ♦ increase the pool of high school graduates who successfully transition to further education and entry into the workforce or military service.

To participate, select from the list of curriculum review committees on the next page and email your contact information and choice to CTE@doe.virginia.gov or call 804-225-3119.

2018-2019 Curriculum Review Committees

► AGRICULTURE, FOOD & NATURAL RESOURCES

♦ Floriculture	October 12, 2018
♦ Agriscience and Technology	October 19, 2018
