

He works hard for you

Here is one way you can help him

We are Crossover Healthcare Ministry, a free clinic serving the families of the working poor in Central Virginia. Our vision is to ensure a healthy, vibrant community.

We know that the business climate is competitive and employers face tough economic realities. Many companies want to, but, are unable to assist their employees and contractors with health insurance, this is where CrossOver comes in.

Our patients share a very common thread. They work hard taking care of themselves and their families. Each patient is unique, but they do have the following in common:

- They work hard and make too much to qualify for medicaid.
- They make LESS than 200% of the federal poverty level.
- For a family of 4 that threshold is \$49,000.
- They don't have health insurance through their employer.
- They only go to the doctor for an emergency, this usually means a trip to the ER. CrossOver is a cost-effective, preventative solution to keep people out of the ER.
- 97 cents of every dollar we raise goes toward direct patient care.
