### Regularly appearing departments:

#### Sustainability

No longer a grand movement or a mere gesture, sustainability is integrated into every project as a matter of course. In the sustainability department of *Dateline*, we highlight the products, technologies, and strategies that help design-builders and owners achieve their sustainability goals while meeting schedule and budget targets.

#### Design-Build Perspectives

Through one-on-one interviews with design-build advocates, owners, and practitioners, *Dateline* provides a platform for sharing wisdom, insights, and lessons learned.

#### Practice

The Practice department allows *Dateline* to cover the broader sweep of operating a successful design-build business. Topics include: insurance and risk; marketing; quals and proposal package preparation; project management; advances in BIM and etc.
