Notes: Limited to two advertorials per issue. Advertorial contracts cannot renew the following year as there is limited availability per issue and we must allow other companies the opportunity to participate with this.

All advertorial copy must be approved by NAFA.

BELOW ARE THE GUIDING PRINCIPLES FOR YOUR THOUGHT LEADERSHIP PIECE.

+ Content should be educational in nature and solution-based, geared to solving a common problem or need within the ports industry. The educational content should not promote the company’s product or service but rather communicate best practices that would allow readers to be more effective and efficient in their roles.

+ Content should include practical, useful information in which readers would find value, and should be independent of the particular editorial advertiser. The overall message and tone should not be promotional in nature.

+ Separately from the educational content, editorial advertisers are encouraged to also include information about their company, testimonials and other helpful resources, but these mentions should be separate from the main messaging.

+ NAFA reserves the right to edit or alter content or deny the ad as it deems necessary to meet the above requirements and provide maximum value for its members.

+ Content must identify company and state that it’s an advertisement.
