**\*1** The definition of "agricultural commodity" found in 40 CFR 171.2 (a)(5) is being adopted in the definition of private applicator to allow producers of livestock, poultry, and fish to qualify for that certificate. 40 CFR 171.2 (a)(5) states: Agricultural commodity means any plant, or part thereof, or animal, or animal product produced by a person (including farmers, ranchers, vineyardists, plant propagators, Christmas tree growers, aquaculturists, floriculturists, orchardists, foresters, or other comparable persons) primarily for sale, consumption, propagation, or other use by man or animals. Private applicators are eligible to obtain a private applicator certification from their local county agricultural commissioner.

**\*2** Operator or Field Representative must provide direct supervision "in presence of" for first 30 days for uncertified structural applicators BPC §8551.5. On the 31<sup>st</sup> day direct supervision defaults to 3CCR §6406.

Pesticide Use Reporting for livestock, poultry, and fish production:

Private applicators engaged in livestock, poultry, or fish production must report pest control applications on a Monthly Summary Pesticide Report per 3CCR §6627. Reports meeting the requirements of 3CCR §6626 are required only for persons engaged in the production of an "agricultural commodity" as defined in 3CCR §6000 that specifically excludes livestock, poultry, or fish (aquaculture).
