

EXAM WORKSHOPS

WE NEED YOUR HELP!

The Structural Pest Control Board (Board) is once again beginning the process of writing new questions for the Applicator examinations. In order to develop examination questions, the Board needs the help of Applicators performing Branch 2 & 3 tasks on a daily basis. Licensee experience, knowledge and feedback are essential for the creation of these new examinations.

The workshops are conducted in a group setting in which the licensees discuss possible examination questions. The group then provides feedback regarding the questions. Previous participants have said that the workshops are very informative and they actually leave with new industry knowledge. All workshops are held in Sacramento.

Individuals that attend exam workshops receive:

- Continuing Education Credit (6 Pesticide Use and Application hours & 2 hours Rules and Regulations)
- \$125 per day
- Reimbursement of hotel stay, meals, mileage, tolls and parking
- Airfare and rental car, if you live in Southern California

Workshop Dates – in Sacramento

April 8 & 9, 2015
April 29 & 30, 2015

If you are interested in attending one of these workshops, please complete the bottom portion of this letter and return it to the Board.

Your license must be active and in good standing to participate. Due to conflict of interest, continuing education providers are unable to participate. Each license will be reviewed to ensure good standing and then you may be contacted for participation. If you have any questions, please contact Dave Skelton at (916) 561-8700.

THANK YOU IN ADVANCE FOR YOUR HELP! WE COULD NOT DO THIS WITHOUT YOU!

Name: _____ License Number: _____

Phone Number: _____

Dates in which you are interested in attending: _____
