New Product – Huber Engineered Woods

Taiga Building Products is proud to announce the distribution of Huber Engineered Woods OSB products.

Founded in 1883 Huber has a proven track record of providing high quality and innovative products. Huber is an industry leader that is committed to producing OSB products in the most efficient way with minimal waste.

Huber products carried by Taiga:

- AdvanTech Flooring
 - Total performance for Floors
 - High-density engineered wood panels provide reliable strength and stiffness
- Zip Panels
 - The fastest way to a resilient roof
 - Installs fast, quicker rough dry-in, protects against water intrusion and is structurally durable for High-Wind Zones
- Zip-R Panels (Insulated OSB panels)
 - Structure, insulation and weather protection
 - Each panel delivers added R-value combined with superior air and moisture resistance with exceptional strength and durability
- All Related accessories
