

## **Milwaukee® Introduces the Fastest Cordless Tire Inflator: Top-Off a Car in Under 1 Minute!**

MILWAUKEE, WI- Milwaukee Tool continues to deliver portable productivity by expanding the largest sub-compact system in the industry, the M12™ platform, with the new M12™ Compact Inflator. The fastest cordless tire inflator in the industry, the tool has the ability to top-off a car tire in under 1 minute\*. Capable of completing demanding inflation applications such as car, LT truck, and compact equipment tires, the new inflator delivers fast, accurate, easy inflation with the portability to take anywhere.

“The variety of cordless tire inflators available today have, unfortunately, failed to deliver both the speed and range of capability required by users. These inflators are able to fill passenger tires, but are unable to efficiently tackle more demanding applications,” said Tom Simeone, VP of Product Management for Milwaukee Tool.

“Our industry-leading cordless technology allows the M12™ Compact Inflator to complete a wide range of applications from light truck tires (448-552 kPa) (65-80 PSI) to compact equipment (69-552 kPa) (10-80 PSI). As part of the M12™ system, this tool also has the advantage of being completely compatible with the wide range of sub-compact tools available on this platform.”

Rated to deliver over 827 kPa (120 PSI) and built with a high efficiency motor and pump, the M12™ Compact Inflator delivers up to 5X the speed of fill on car and light truck tires, \*\* and can fill a light truck tire from flat to full on a single battery. The REDLINK Intelligence™ with TrueFill™ Auto Shut-Off Technology delivers highly accurate pressure, protects from overfill and overtemp, and automatically senses speed of fill to shut off at the desired PSI. Additionally, a back-lit LCD screen illuminates the digital gauge so users can more easily check the target and current pressure reading.

Weighing just over 1.4kg (3 lbs,) the M12™ Compact Inflator is designed with an integrated handle so it can be transported nearly anywhere. A reinforced cage protects it from drops and impact, as well as inclement weather. The backside of the unit features a place to easily store the 66cm (26”) hose and attachments, including a ball inflation needle, inflatable nozzle, and presta chuck.

The M12™ Compact Inflator’s all-brass chuck creates an easy and reliable connection to tires, preventing leaks. To counter shifting and movement during the filling process, the unit is built with an anti-vibration stand that keeps it in place throughout the duration.

Available April 2018, the new M12™ Compact Inflator joins the largest sub-compact system in the industry, the M12™ platform, now offering more than 90 professional cordless solutions focused on power, productivity, and portability.

*\*193-241 kPa (28-35 PSI)*

*\*\*When compared to corded and cordless units*

## **Specifications**

### **M12™ Compact Inflator (2475-21XC)**

- 0.025 cubic metre/minute at 0 kPa (0.88 CFM at 0 PSI)
- 0.018 cubic metre/minute at 241 kPa (0.63 CFM at 35 PSI)
- 0 – 827 kPa (0 – 120 PSI) Rating
- Duty Cycle: 50%
- Gauge Accuracy: +/- 3%
- Hose Length: 66cm (26")
- Height: 19cm (7.5")
- Width: 16.5cm (6.5")
- Weight (w/ battery): 2.36kg (5.21 lbs)

**Includes M12™ Compact Inflator, M12™ REDLITHIUM™ XC4.0 Extended Capacity Battery Pack, M12™ Charger, and 4 attachments: Ball Inflation Needle, Presta Chuck, Inflator Nozzle, and Schrader Chuck.**

\*Also available as a Bare Tool (2475-20)

## **About Milwaukee Tool**

Milwaukee Tool, founded in 1924, is a global leader in delivering innovative solutions to the professional construction trades that offer increased productivity and unmatched durability. Whether it is through their world-leading M12™ and M18™ cordless systems, the ground-breaking performance of their M12 and M18 FUEL™ products, time-saving accessories, or innovative hand tool products, Milwaukee is dedicated to delivering a steady stream of advanced, trade-specific solutions. Milwaukee Tool is a Brookfield, Wisconsin-based subsidiary of Techtronic Industries Co. Ltd. (TTI) (HKEx stock code: 669, ADR symbol: TTNDY). For more information on the full line of Milwaukee® products, please call 1-800-SAWDUST or visit [www.milwaukeetool.com](http://www.milwaukeetool.com)
