

# Lodging: US RevPAR -79.4% Y/Y Last Week; Perhaps impact from Easter weekend/Passover holiday shift

#### **What's Incremental To Our View**

Overall U.S. RevPAR was -79.4% Y/Y for the week ending 4/18/2020, per STR, stronger than the prior week's result of -83.6%. (2-year stacked RevPAR was -87.4% vs -76.8% in the prior week). Independent hotels (about 1/3rd of the data set) were -78.3% y/y. Economy (-41.0%) was the relatively strongest chain scale for branded hotels; Luxury was the weakest at -94.5%. Upscale (-82.2%) underperformed the industry average; Upper Midscale (-76.0%) outperformed. Within Upper Upscale & Luxury class hotels, Group (-91.7% vs. -96.6% prior week) was stronger than Transient (-94.5% vs. -94.9% prior week).

Last week's results represented a modest sequential improvement in RevPAR trends over the prior week's results (-79.4% for the week ending 4/18 vs. -83.6% for the week ending 4/11. There is a holiday shift impact given Passover/Good Friday was last week in 2019 vs. two weeks ago in 2020; the impact from the holidays pale in comparison to the virus demand shock.

Please note there are many hotels that suspended operations/closed and they are not included in the
comparisons. Implications are that the headline statistics overstate the actual performance of the overall
industry. Given more hotels are closing than reopening (we do not see a material number of hotels
reopening), we strongly believe we have yet to reach the bottom of the COVID-19 lodging demand
shock.

Please see our First look at virus impact on US hotel RevPAR and China & Italy notes for our additional analysis on last week's U.S. and international trends.

#### Last week's RevPAR details:

- Economy was the relatively strongest chain scale but all chain scales were materially negative: Upscale and Upper Midscale underperformed by 4,120 bps and 3,500 bps, respectively: Luxury RevPAR (-94.5%), Upper Upscale (-92.6%), Upscale (-82.2%), Upper Midscale (-76.0%), Midscale (-60.3%), and Economy (-41.0%). Independent hotels (-78.3%) outperformed the headline U.S. RevPAR.
- Within Upper Upscale & Luxury class hotels, Group outperformed Transient but both segments were similarly materially negative: Transient segment (individual business and leisure travelers) RevPAR was -94.5% (vs. -94.9% last week) and Group segment RevPAR was -91.7% (vs. -96.6% last week).

#### What's Inside

Weekly STR results and analysis

- Los Angeles was the relatively strongest of the top five markets: Boston (-89.3%), Chicago (-82.8%), Los Angeles (-82.4%), NYC (-83.9%), and Washington, D.C. (-85.0%).
- Other relevant markets:
  - San Francisco: RevPAR was -91.0% vs. -93.5% last week.
  - Florida market RevPAR:
    - Miami: (-89.3% vs. -90.2% last week);
    - **Orlando:** (-92.0% vs. -92.4% last week). We expect Orlando results to remain especially challenged given the major theme parks are closed and group demand is essentially zero.

From observations of what is happening with RevPAR and re-openings in China, we suspect we may see a slower and longer recovery in the US than what the more optimistic/bullish management teams and investors expect. While hotel stocks have been crushed, we are holding back on any potential stock upgrades at this time as we suspect we may see more attractive entry points at a future date.

(Our ratings and price targets generally represent our recommendations and forecasts based on a 12 to 18 month outlook. We acknowledge that near term uncertainty and volatility could affect financial inputs to our targets, and the likely multiples the market may pay for those metrics.)

I also certify that I have not been, am not, and will not be receiving direct or indirect compensation in exchange for expressing the specific recommendation(s) in this report.

## **Required Disclosures**

Analyst compensation is based upon stock price performance, quality of analysis, communication skills, and the overall revenue and profitability of the firm, including investment banking revenue.

As a matter of policy and practice, the firm prohibits the offering of favorable research, a specific research rating or a specific target price as consideration or inducement for the receipt of business or compensation. In addition, associated persons preparing research reports are prohibited from owning securities in the subject companies.

Charts indicating changes in ratings can be found in recent notes and/or reports at our website or by contacting SunTrust Robinson Humphrey. Please see our disclosures page for more complete information at <a href="https://suntrust.bluematrix.com/sellside/Disclosures.action">https://suntrust.bluematrix.com/sellside/Disclosures.action</a>.

## **STRH Ratings System for Equity Securities**

**Dissemination of Research** 

SunTrust Robinson Humphrey (STRH) seeks to make all reasonable efforts to provide research reports simultaneously to all eligible clients. Reports are available as published in the restricted access area of our website to all eligible clients who have requested a password. Institutional investors, corporates, and members of the Press may also receive our research via third party vendors including: Thomson Reuters, Bloomberg, FactSet, and S&P Capital IQ. Additional distribution may be done by sales personnel via email, fax, or other electronic means, or regular mail.

For access to third party vendors or our Research website: https://suntrustlibrary.bluematrix.com/client/library.jsp.

Please email the Research Department at mailto:STRHEquityResearchDepartment@suntrust.com or contact your STRH sales representative.

#### **STRH Rating System for Equity Securities**

SunTrust Robinson Humphrey (STRH) rates individual equities using a three-tiered system. Each stock is rated relative to the broader market (generally the S&P 500) over the next 12-18 months (unless otherwise indicated).

**Buy (B)** – the stock's total return is expected to outperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

**Hold (H)** – the stock's total return is expected to perform in line with the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

**Sell (S)** – the stock's total return is expected to underperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Not Rated (NR) – STRH does not have an investment rating or opinion on the stock

**Coverage Suspended (CS)** – indicates that STRH's rating and/or target price have been temporarily suspended due to applicable regulations and/or STRH Management discretion. The previously published rating and target price should not be relied upon.

STRH analysts have a price target on the stocks that they cover, unless otherwise indicated. The price target represents that analyst's expectation of where the stock will trade in the next 12-18 months (unless otherwise indicated). If an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of STRH Research Management not to assign a target price; likewise certain stocks that trade under \$5 may exhibit volatility whereby assigning a price target would be unhelpful to making an investment decision. As such, with Research Management's approval, an analyst may refrain from assigning a target to a sub-\$5 stock.

## **Legend for Rating and Price Target History Charts:**

B = Buy

H = Hold

S = Sell

D = Drop Coverage

CS = Coverage Suspended

NR = Not Rated

I = Initiate Coverage

T = Transfer Coverage

SunTrust Robinson Humphrey ratings distribution (as of 04/22/2020):
