

Lodging

Lodging: US RevPAR +104.2% Y/Y Last Week; 2yr -1.4% vs. Prior -15.8%; Weekend leisure strong

Huge variance between weekend RevPAR (+30% vs. 2019) and Weekday (-15% vs. 2019)

What's Incremental To Our View

Overall U.S. RevPAR was +104.2% y/y for the week ending 11/13/2021, per STR, stronger than the prior week's result of +89.7%. Last week's RevPAR was up against a -52.0% comparable result in 2020 vs. -55.8% in the prior week's 2-year run-rate. On a 2-year run-rate, RevPAR was -1.4% vs. -15.8% in the prior week's 2-year run-rate.

Last week presented another strong performance for weekend leisure and small group travel relative to weekday corporate demand.

There are major variances between midweek and weekend results throughout the STR data -- a continuing trend despite the gradual rampup of corporate travel. RevPAR last week versus 2019 was +31% for the U.S. on Friday-Saturday versus down approx. 15% in the midweek. Within the chain scales we see bigger gaps: Upper Upscale RevPAR was +16-18% on the weekend versus Monday-Wednesday down between 37% and 42%. Comparatively, Economy weekend RevPAR last week versus 2019 was +33-34% vs. Monday-Wednesday of +17-19 (midweek nothing to complain about but we note that Economy demand is more heavily leisure and essential blue-collar business demand). Economy beneficiaries: Wyndham (WH, Buy) and Choice (CHH, Hold).

- We also see a large weekday-weekend performance gap for Top 25 markets. During 3Q earnings, RLJ (RLJ, Miller, Buy) spoke to strong demand from "shopping weekends" in major markets. We think that strength is apparent when looking at the occupancy for NYC last weekend (85% Friday; 89% Saturday) vs. midweek in the 60s/low 70s. For Orlando, we also see a tremendous variance with midweek occupancy in the 50s% vs. mid 80s during the weekend (we assume regional demand to the theme parks + some shopping benefit as well; not as impressive for midweek corporate group).
- Group occupancy was a bit stronger last week (17.5% vs. running 28 days of 16.4%). Perhaps we are also seeing some pushout of groups due to the Delta variant showing up in the STR data although we remind investors that we are approaching the end of the normal corporate group fall season and importantly the outperforming group hotels appear last week to be small in size. Under 300 rooms: occupancy 52%; over 750 rooms: occupancy just 33-34%.

Major RevPAR statistics presented below:

- Luxury RevPAR: +253.1% y/y and -9.9% over 2 years
- Upper Upscale RevPAR: +208.2% y/y and -21.2% over 2 years;

C. Patrick Scholes 212-319-3915 Patrick.Scholes@truist.com

What's Inside

Weekly STR results and analysis

- Upscale RevPAR: +103.9% y/y and -11.8% over 2 years;
- Upper Midscale RevPAR: +78.2% y/y and +6.2% over 2 years;
- Midscale RevPAR: +58.5% y/y and +19.9% over 2 years;
- Economy RevPAR: +40.1% y/y and +23.7% over 2 years;
- Independent hotels (~ 1/3rd of the data set) RevPAR: +93.9% y/y and +9.5% over 2 years; and
- Within Upper Upscale & Luxury class hotels:
 - Group: +470.3% y/y vs. +360.7% prior week; over 2 years: -29.0% vs -47.4% prior week.
 - Transient: +147.0% y/y vs. +130.3% prior week; over 2 years: -4.1% vs -16.8% prior week.

Last week's RevPAR details and sequential trends:

- Headline RevPAR was +104.2% y/y vs. the running 28-day average of +90.9% y/y.
- Occupancy: Absolute occupancy was 61.6% y/y vs. the running 28-day average of 61.0% y/y.
- Open/closed hotels: Per STR, 0.7% of the hotel supply was closed (vs. 0.7% last week)
 - Please note there are many hotels that suspended operations/closed and they are not included in the comparisons. Implications are that the headline statistics likely overstate the actual performance of the overall industry.
- Absolute Group occupancy remains relatively light and driven in our view partly from leisure group such as wedding demand and moderate attendance from fall conventions: 17.5% last week vs. 16.4% for the running 28 days.

As far as stocks, we reiterate our view the companies relatively best positioned here in our coverage universe are the drive-to leisure-centric C-Corps CHH, WH, and RLJ for the value-play business traveler in the early corporate demand recovery, and the timeshare companies, HGV, VAC, and TNL (formerly WYND). WH, RLJ, HGV, VAC, and TNL are the only names we believe we can still get material upside based on our 2023 estimates, hence our Buy ratings. CHH is rated Hold.

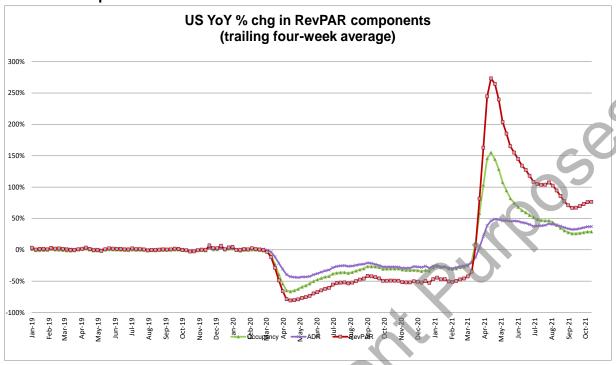

While the broader economy may have a U-shaped recovery, we believe hotel operating performance will take substantially longer to recover and be much choppier and vary by segmentation and geography. Additionally, we believe work from home will have a short-to-medium impact on hotel demand, though the longer-term impact is still unknown. While some travel industry leaders, news reporters, and businesspeople have predicted that 35-50% of business travel will be permanently lost, our view is that it will be far less than 35-50% though it will not be zero either (Hospitality Net).

I also certify that I have not been, am not, and will not be receiving direct or indirect compensation in exchange for expressing the specific recommendation(s) in this report.

I, Gregory J. Miller, hereby certify that the views expressed in this research report accurately reflect my personal views about the subject company(ies) and its (their) securities. I also certify that I have not been, am not, and will not be receiving direct or indirect compensation in exchange for expressing the specific recommendation(s) in this report.

Required Disclosures

Analyst compensation is based upon stock price performance, quality of analysis, communication skills, and the overall revenue and profitability of the firm, including investment banking revenue.

As a matter of policy and practice, the firm prohibits the offering of favorable research, a specific research rating or a specific target price as consideration or inducement for the receipt of business or compensation. In addition, associated persons preparing research reports are prohibited from owning securities in the subject companies.

Charts indicating changes in ratings can be found in recent notes and/or reports at our website or by contacting Truist Securities. Please see our disclosures page for more complete information at https://truist.bluematrix.com/sellside/Disclosures.action

Truist Securities Ratings System for Equity Securities

Dissemination of Research

Truist Securities, Inc. ("Truist Securities") seeks to make all reasonable efforts to provide research reports simultaneously to all eligible clients. Reports are available as published in the restricted access area of our website to all eligible clients who have requested a password. Institutional investors, corporates, and members of the Press may also receive our research via third party vendors including: Thomson Reuters, Bloomberg, FactSet, and S&P Capital IQ. Additional distribution may be done by sales personnel via email, fax, or other electronic means, or regular mail.

For access to third party vendors or our Research website: https://truistresearch.bluematrix.com/client/library.jsp

Please email the Research Department at EquityResearchDepartment@research.truist.com or contact your Truist Securities sales representative.

Truist Securities Rating System for Equity Securities

Truist Securities, Inc. ("Truist Securities") rates individual equities using a three-tiered system. Each stock is rated relative to the broader market (generally the S&P 500) over the next 12-18 months (unless otherwise indicated).

Buy (B) – the stock's total return is expected to outperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Hold (H) – the stock's total return is expected to perform in line with the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Sell (S) – the stock's total return is expected to underperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Not Rated (NR) - Truist Securities does not have an investment rating or opinion on the stock

Coverage Suspended (CS) – indicates that Truist Securities' rating and/or target price have been temporarily suspended due to applicable regulations and/or Truist Securities Management discretion. The previously published rating and target price should not be relied upon.

Truist Securities analysts have a price target on the stocks that they cover, unless otherwise indicated. The price target represents that analyst's expectation of where the stock will trade in the next 12-18 months (unless otherwise indicated). If an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Truist Securities Research Management not to assign a target price; likewise certain stocks that trade under \$5 may exhibit volatility whereby assigning a price target would be unhelpful to making an investment decision. As such, with Research Management's approval, an analyst may refrain from assigning a target to a sub-\$5 stock.

Legend for Rating and Price Target History Charts:

B = Buy

H = Hold

S = Sell

D = Drop Coverage

CS = Coverage Suspended

NR = Not Rated

I = Initiate Coverage

T = Transfer Coverage

Other Disclosures

Information contained herein has been derived from sources believed to be reliable but is not guaranteed as to accuracy and does not purport to be a complete analysis of the security, company or industry involved. This report is not to be construed as an offer to sell or a solicitation of an offer to buy any security. Truist Securities, Inc. and/or its officers or employees may have positions in any securities, options, rights or warrants. The firm and/or associated persons may sell to or buy from customers on a principal basis. Investors may be prohibited in certain states from purchasing some over the-counter securities mentioned herein. Opinions expressed are subject to change without notice.

Truist Securities, Inc.'s research is provided to and intended for use by Institutional Accounts as defined in FINRA Rule 4512(c). The term "Institutional Account" shall mean the account of: (1) a bank, savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

Truist Securities, Inc. is a registered broker-dealer and a member of FINRA and SIPC. It is a service mark of Truist Financial Corporation. Truist Securities, Inc. is owned by Truist Financial Corporation and affiliated with SunTrust Investment Services, Inc. and BB&T Securities, LLC. Despite this affiliation, securities recommended, offered, sold by, or held at Truist Securities, Inc., SunTrust Investment Services, Inc. or BB&T Securities, LLC (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Truist Bank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. Truist Bank may have a lending relationship with companies mentioned herein.
