

6th Annual

Decommissioning & Abandonment Summit

March 10-12, 2014, Royal Sonesta Hotel, Houston

Cutting-edge strategies to reduce offshore liability and deliver more timely, cost-effective and safer decommissioning projects

600+ platforms are eligible for decommissioning in the Gulf of Mexico alone and there is increased liability across key offshore regions. Join the world's number one meeting point to equip yourself with the strategies and tools you need to reduce offshore liability

The top 5 reasons to reserve your seat now:

- 1 Keynote presentations** from the world's leading decommissioning stakeholders, including BSEE, Shell, Chevron, BP, Stone Energy and Hess Corporation
- 2 Benchmark your decommissioning costs** with insight from the industry's top costing experts and get exclusive insight on IPA's GoM Decommissioning Study
- 3 Debate the industry's biggest challenges** through new interactive workshops focused on Deepwater, Floating Facilities and Large Structural Abandonment
- 4 Network with the global D&A community**, including key decommissioning decision-makers from North Sea, West Africa, SE Asia and Australia
- 5 Access the industry's only exclusive D&A networking functions** to meet and do business with those shaping the future of D&A across the globe
