

Underwater Ships Husbandry Port Authority

SEMINAR

2022

12 September | 8.30 - 4.00pm
Jumeirah Creekside Hotel

Underwater Ships Husbandry Port Authority Seminar

Dear Sir \ Madam,

International Diving Industry Forum (IDIF) is pleased to invite you to the inaugural IDIF diving safety event on:

12th September 2022 in Dubai, UAE

The Seminar will combine technical inputs from diving industry experts, recommended operational guidelines and practices, and hands-on experiences carried out worldwide. The event aims to provide delegates with the awareness that will enable them and their teams to continue to increase diving industry safety while controlling the risks associated with underwater ship husbandry.

Health and safety of divers is critical while working underwater due to the high risks associated with the different tasks. Ships maintenance and subsea repairs (Ships Husbandry) are undertaken at anchorages throughout the world. The IDIF has selected Dubai to launch this safety initiative as UAE is a global energy and maritime hub. A number of experts have confirmed attendance to share their experiences on this worldwide issue.

Underwater Ships Husbandry Port Authority Seminar 2022 will be delivered in collaboration with three key industry stakeholders – the Association of Diving Contractors International (ADCI); the International Marine Contractors Association (IMCA); and the International Association of Oil and Gas Producers (IOGP).

Who is this Seminar aimed at? –

- Energy & Maritime Regulatory Representatives
- Port Authority Representatives
- Diving Contractors
- Ship Owners & Operators
- Classification Societies'

Underwater Ships Husbandry Port Authority

SEMINAR

2022

MEET OUR THOUGHT LEADERS

TONY GREENWOOD

Diving Critical Activity
Specialist
ExxonMobil

PHIL NEWSUM

Executive Director
ADCI

JORD LUCAS

Head of Underwater
Operations
TotalEnergies

KRIS CHAMBERS

Global Diving Technical
Authority
BP

BRYAN MCGLINCHY

Diving Manager
IMCA

OLAV SKAR

Health, Safety, Security
and Wells Director
IOGP

DARREN BRUNTON

Managing Director
KBA Training Center Pte

PETER SIENIEWICZ

Diving Consultant
IMCA

Speakers' biographies

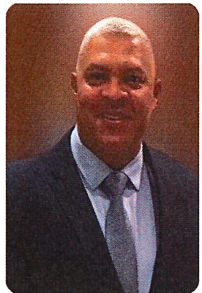

TONY GREENWOOD | DIVING CRITICAL ACTIVITY SPECIALIST, EXXONMOBIL

Currently serving as ExxonMobil's Diving Critical Activity Specialist.

With over 30 years of experience as a US Navy and commercial diving professional, Tony currently serves as the Lead Diving Subject Matter Expert for ExxonMobil Global Projects. Through the Diving Center of Expertise, he ensures diving-related risks to people, the environment, and the business are understood and managed systematically and effectively across the company's operations and projects.

Tony contributes to several diving technical workgroups and committees, such as ADCI, IMCA, ABS, and other national diving standards organizations. In addition, he holds an active role within a technical committee that advises on diving codes to the International Maritime Organization.

Additionally, he serves as Vice-Chair of the Diving Operations Safety Committee of the International Association of Oil and Gas Producers; and the International Diving Industry Forum (IDIF).

PHIL NEWSUM | EXECUTIVE DIRECTOR, ADCI

Phil Newsum is the Executive Director of the Association of Diving Contractors International (ADCI).

For the last 15 years, under Phil's leadership, the ADCI has greatly expanded its support capability and membership into one of the premier diving industry associations globally. ADCI puts forth guidance, best practices, and lessons learned for safe inland and offshore commercial diving. Including the recent release of "The Underwater Ship Husbandry (UWSH) for Ocean-Going Ships" guidance document.

Prior to working for the ADCI, Phil was a diver and supervisor in the Gulf of Mexico and a commercial diving instructor at the Divers Institute of Technology.

Receiving his MA from Claremont University, Phil also served proudly in the United States Marine Corps and is currently an officer in the Texas State Guard.

Phil serves on many committees and subcommittees, as well as numerous executive and advisory boards in the underwater industry and is the commercial diving representative for the National Offshore Safety Advisory Committee (NOSAC).

JORD LUCAS | HEAD OF UNDERWATER OPERATIONS, TOTALENERGIES

Jord joined TOTAL ENERGIES in 2014. Being today in charge of the Diving and ROV segments for the group, he technically assists with his team the affiliates, projects and continuing subsea activities.

Prior to that, Jord has spent more than 20 years in the French Navy as a Diving Military Expert. He held a position at the Ministry of Defence as the Diving Superintendent. Jord entered service as a mine warfare officer and EOD diver. He served in a broad range of senior commanding positions and was awarded the Knight of the Legion of Honour medal, the highest French order of merit, both military and civil. In addition to this, Jord is the bearer of several other honors, decorations and medals for exceptionally meritorious conduct in the performance of outstanding services.

Jord is currently the Chair of the Diving Operations Safety Committee (DOSC) of the International Association of Oil and Gas Producers (IOGP) and the International Diving Industry Forum (IDIF).

KRIS CHAMBERS | GLOBAL DIVING TECHNICAL AUTHORITY, BP

Kris Chambers is the Global Diving Technical Authority for BP plc where he is responsible for ensuring safe and compliant diving activities are performed throughout all entities at BP.

Prior to working for BP, Kris was employed as the Technical Advisor – Diving at IMCA and was the Diving Manager for Global Industries in the Middle East.

Kris holds a BA and MA from the University of Leicester, MLitt from the University of Highlands and Islands, and from an assurance perspective holds a Diploma of Marine Surveying from Lloyds Maritime Academy, is an IRCA Principal Auditor (ISO 45001) and PCQI with the Chartered Quality Institute (ISO 9001).

Kris actively supports IOGP, IMCA and GOM DSWG subcommittees and workgroups.

Speakers' biographies

BRYAN MCGLINCHY | DIVING MANAGER, IMCA

Bryan McGlinchy is the Diving Manager for the International Marine Contractors Association (IMCA).

Bryan began his career as an offshore diver in the early eighties working in the Middle East, India, North Sea, & West Africa on a wide range of commercial diving activities.

In 1997 Bryan joined the UK Health and Safety Executive & worked as a front-line Diving Specialist Inspector for over 12 years. He was responsible for the inspection of all sectors of the diving industry in Great Britain & for the investigation of accidents, incidents & complaints related to diving at work, both onshore & offshore.

In addition, Bryan supervised diving research projects & developed diving industry guidance for the Executive.

Today, Bryan uses his wealth of experience in the offshore diving industry and as a safety professional to manage the busy work programme of the IMCA Secretariat's diving team.

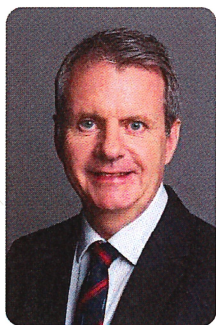

OLAV SKAR | HEALTH, SAFETY, SECURITY AND WELLS DIRECTOR, IOGP

Olav was seconded from Shell to IOGP in 2019.

His international career has spanned most aspects of Wells Engineering and Operations in countries like New Zealand, Thailand, Norway, Algeria, Qatar, The Netherlands and the UK, all with their own unique HSE challenges and solutions.

Olav has been an active SPE member since 1986. He has previously held board or leadership appointments with entities like the International Well Control Forum, OGUK, and various committees of the SPE and IADC. He currently chairs Joint Industry Project 37, which aims to improve helicopter safety, serves as a board member of the Well Control Institute, and holds steering roles for initiatives like Human Performance in Oil and Gas, Rapid S54 JIP, and various others.

In 2018, he was appointed a Visiting Professor at Robert Gordon University and is proud to have contributed as a mentor for the Leadership Team at Comoë National Park in Côte D'Ivoire.

DARREN BRUNTON | MANAGING DIRECTOR, KBA TRAINING CENTER PTE LTD

Darren is the Managing Director of KB Associates Group of Companies. He is well-versed in working in high-risk industries. With a 12-year career in the British Forces (of which 6 years with Commando Forces) and an overall career within the military / commercial diving industry spanning from 1979.

Darren has a MSc in Occupational Health, Safety and Environmental Management and a Chartered Fellow of the Institution of Safety & Occupational Health (CfIOSH), and a Registered IRCA UK ISO45001:2018 Lead Auditor. He is a member of The Institute of Industrial Accident Investigators and a Provisional member of the Asia Pacific Institute of Experts. As a member of the International Marine Contractors Association (IMCA) Diving Division Management Committee he plays an intrinsic role in establishing and reviewing of commercial diving industry's safe work practices and industry guidance, he held the position of Vice Chairman for the Commercial Diving Association (Singapore) for 10 years and Chairman of IOSH Singapore Branch for 6 years.

Darren was the Chairman/Governor of the workgroup committee revising the Singapore Code of Practice for Commercial Diving SS511:2018, and between 2017-2019 was a National Examination Board Occupational Safety and Health (NEBOSH) Council and Board of Trustee member.

PETER SIENIEWICZ | DIVING CONSULTANT, IMCA

Peter Sieniewicz is a Diving Consultant for the International Marine Contractors Association (IMCA).

Peter began his diving career in Canada, moving to England in the late 70s. In England he initially worked as a diver and a commercial diver trainer. He then took up a post at University College London as an underwater inspection researcher, before moving to Aberdeen to become the ROV and inspection services manager at Rockwater.

In 1997 Peter joined the UK HSE as a Diving Specialist Inspector, becoming Principal Inspector of the Southern Diving Team in 2000. Until 2012, he managed a team of HSE specialist diving inspectors looking after the health and safety of divers in the UK through inspection and investigation activities both offshore and onshore.

For the last 10 years, Peter has worked for IMCA as a Diving Technical Adviser and consultant.

Agenda

08:30	REGISTRATION & NETWORKING BREAKFAST OPENS
09:00	Welcome Chair: Tony Greenwood, ExxonMobil
09:10	Opening Address – Occupational Diving Safety Regulations in the UAE
09:10	Opening Address – Oil and Gas Producers; Health and Safety's place in Diving Olav Skar, IOGP
09:30	Ships Husbandry Diving Industry Today – A case for action Tony Greenwood, ExxonMobil
09:50	What is ships husbandry diving? - Tasks and Hazards of Diving on Ships, Tankers, and in Jetty Areas Kris Chambers, BP
10:10	Diving Methods and Equipment: Their Risks - Surface Demand vs Scuba Phil Newsum, ADCI
10:30	Dive Team Qualification, Size and the Dive Platform Bryan McGlinchy, IMCA
10:50	MORNING COFFEE & NETWORKING BREAK
11:15	What a competent contractor should look like? Kris Chambers, BP
11:40	Ships Husbandry Diving in the UAE Local CTR/Provider
12:00	Question and Answer Session – How can UWSH best practice positively impact local industry? Phil Newsum, ADCI Peter Sieniewicz, IMCA Kris Chambers, BP Bryan McGlinchy, IMCA
12:30	NETWORKING LUNCH
13:30	Morning Session Summary - Chair
13:40	Permits to Work/Vessel Isolation Peter Sieniewicz, IMCA
14:00	Emergency Planning Darren Brunton, KBA
14:20	Available Guidance IDIF Ship's Husbandry Guidance Phil Newsum, ADCI
14:40	Panel Discussion - The UWSH practice - Staying agile and embracing change Phil Newsum, ADCI Peter Sieniewicz, IMCA Kris Chamber, BP Bryan McGlinchy, IMCA Local Industry Representative
15:10	SEMINAR ENDS
