

Can you smell the bacon?

April is National "Dig Safe" Month, a great time to remind everyone of the importance of safe digging practices. Before starting any digging project, it's crucial to know where pipelines and utility lines are buried.

The SCGA invites you to register for a free Dig Safe Awareness Breakfast this April at one of 23 locations across Saskatchewan:

Assiniboia, Carievale, Carlyle, Esterhazy, Estevan, Fort Qu'Appelle, Grenfell, Humboldt, Lloydminster, Maple Creek, Moose Jaw, Moosomin, North Battleford, Preeceville, Prince Albert, Regina, Rosetown, Saskatoon, Swift Current, Tisdale, Watson, Weyburn, and Yorkton.

These breakfasts are intended to bring together key stakeholders from various sectors involved in safe digging and damage prevention and are funded by 30 industry members in partnership with the SCGA for more than 30 years. For those attending in Lloydminster we jointly host with Utility Safety Partners.

The SCGA has tailored these events to a wide range of industry professionals, including:

- Excavators, contractors, and landowners
- Farmers and agricultural industry representatives
- Oil and gas, water and sewer, telecom, and trenchless industry representatives
- Municipal and public works departments
- One Call Center members, owners, and operators
- Utility locate service providers and administrators
- Engineers, safety officers, and risk management professionals
- Insurance claims and loss prevention specialists
- Environmental consultants and compliance officers
- Local fire/police departments, EMS personnel, safety officers, and counselors

The breakfast program runs from 7:30 to 8:30 am (*9:00 am in Fort Qu'Appelle) and offers a chance to connect over coffee, hot food, and learn about current damage prevention practices.

Open to anyone who wants to prioritize safe digging!

We hope to see you there!

Damage prevention is a shared responsibility.
