

Welcome to Physics, Science, and Math Days!

We are so happy that you have chosen to attend this wonderful day of fun and education! **Physics, Science and Math Days (PSM)** has been around many years and has seen many changes. With the collaborative effort of the Teacher Steering Committee, it has become one of the most sought out Physics, Science, and Math field trips in the country.

Although this is a day of fun and education, please note that **we provide the venue, and it is up to you to implement the use of the worksheets and activities.** We have a Rollercoaster contest and activities for your students to enjoy. **California's Great America cannot make programs mandatory for your students to do; it is the responsibility of the teachers to do so.**

Please be aware that California's Great America will not have worksheets available on the day of the event.

Please call (408) 986-5853 for more information on the Rollercoaster contest or if you have any further questions.

Thank You!
