

# Pre-Construction Open House

## Monday, April 24, 2017

5:30–7:00 pm

Escalon Community Center, 1055 Escalon Avenue

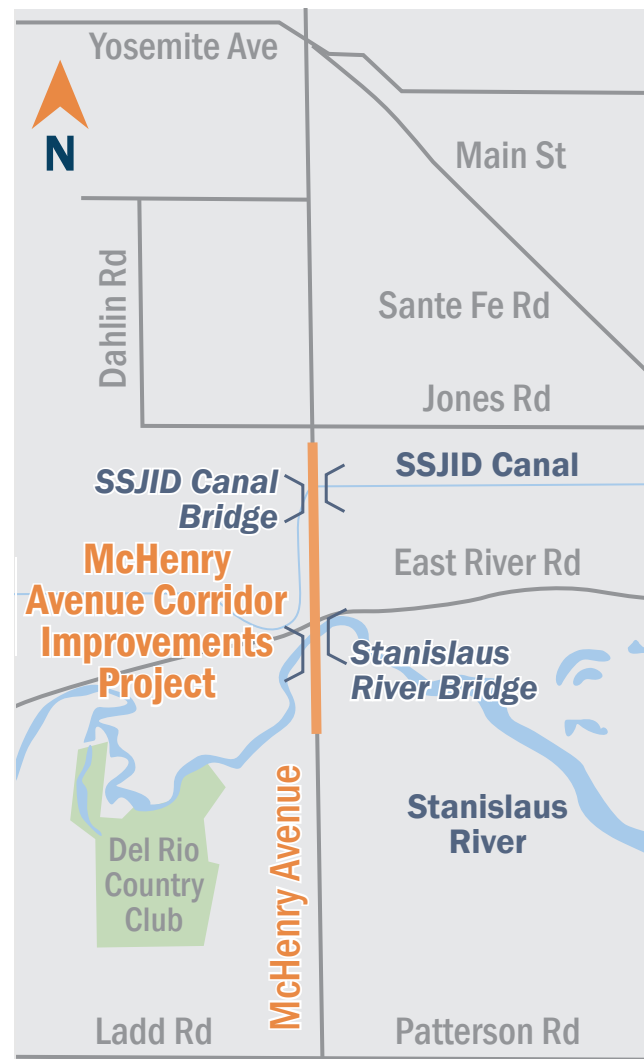

Join us to learn about the McHenry Avenue Corridor Improvements Project and upcoming construction.

### Project features include:

- Widen 1.1 miles of McHenry Avenue from 1,487 feet south of River Road to 190 feet south of Jones Road
- Replace McHenry Avenue Bridges over the Stanislaus River and South San Joaquin Irrigation District (SSJID) Canal with wider and safer bridges
- Add a signal at the intersection of McHenry Avenue and River Road
- Install a center two-way left turn lane to facilitate turns into and out of driveways on McHenry Avenue

### Project benefits include:

- Enhance safety
- Meet current seismic design standards for the new bridges
- Accommodate existing and future traffic volumes
- Improve access and circulation
- Improve air quality

Take a pre-meeting survey by April 17:
