

Stormwater Management for Home Builders

Tuesday, March 26, 9:30 – 11:30 am
Southface Learning Center
241 Pine Street Atlanta, GA 30308

Hosted by

CITY OF ATLANTA
DEPARTMENT OF WATERSHED MANAGEMENT

This workshop will focus on new stormwater management requirements for **Single Family Residential** lots, with emphasis on:

- Urban runoff and impacts on streams & downstream properties
- Green stormwater infrastructure practices
- Requirements for development and redevelopment on individual lots
- Using the new guidance document: *Green Infrastructure for Single Family Residences*
- Appropriate plant selection for rain gardens
- Maintenance recommendations
- Simple infiltration testing

Bring your own project plans for discussion in breakout groups with City staff and consulting engineers.

Please **RSVP** to Sharonia McGinty, SHMcGinty@AtlantaGa.Gov, 404-546-1302.

For more information on the new stormwater management requirements and upcoming workshops, please visit www.atlantawatershed.org/greeninfrastructure.
