

Technical Trainer & Compliance Specialist

The Energy Cooperative is currently seeking a Technical Trainer & Compliance Specialist for its natural gas division located in Hebron, OH. This position is responsible for compliance with applicable Environmental Protection Agency (EPA) and Department of Transportation (DOT) regulations, 49 CFR 191, 192 and 199. Monitors and maintains Operator Qualification Program. Develops and maintains Integrity Management Plans, and stays informed of developing regulatory issues. Works closely with others to develop safe, OSHA compliant work practices. Conducts training as needed.

Qualifications: Bachelor's degree in a related field, 7-10 years of diversified experience in the natural gas industry which includes operations and engineering, or an equivalent combination of education, experience and training. Demonstrated knowledge of field operations, practices, gas distribution policies and procedures, stated and federal regulations with emphasis on US DOT 40 CFR 191, 192, and 199. Thorough knowledge of the interpretation and application of the National Fuel Gas Code. Proficient in Microsoft Office Word and Excel.
