

Free – Excavation Damage Prevention and Line Locating Training Class sponsored by UTI

UTI presents a free training program on excavation damage prevention and line locating, for two specific groups:

New Student Locating – September 17th and 18th, 2025

- Work with an experienced locator
- Hands-on instruction on the proper use of equipment and locating techniques
- Classroom instruction on Ohio 811 participation, response to locate tickets, and the universal marking standards
- How to recognize locating problems in the field, and what to do in an emergency

Refresher Training for Locators and Excavators – September 16th, 2025

- Hands-on instruction on locating techniques
- Ohio 811 participation and response to locate tickets, and review of the universal marking standards
- Proper excavating techniques when near buried utilities
- Ohio One Call Law requirements for locators and excavators
- How to recognize abnormal operating conditions and response to emergencies

Please contact UTI at (614) 482-8080 or via e-mail at reception@uti-corp.com to register. The training will take place at UTI's headquarters at 4700 Homer Ohio Lane, Groveport Ohio from 8:30 AM to 4 PM.

UTI encourages attendees to bring their own locating equipment if possible, so you can learn with familiar equipment. UTI will also have a limited amount of locating equipment on hand.

Note this is a training class and not intended for Operator Qualification. If you are interested in Operator Qualification for Line Locating, UTI may be able to provide this qualification for a fee, please contact UTI in advance if interested.
