

What would it **cost your worksite** to be **shut down** for a day? For a week?

Did you know that if your company is issued a Stop Work Order, **all your workers must still be paid**?

If you are on a job site with other sub-contractors, how would your Stop Work Order **impact them and the project** as a whole? How would your **reputation** be affected? Would you be as likely to get work with that General Contractor **in the future**?

OF THE 409 STOP WORK ORDERS ISSUED IN 2021, 181 OR 44% WERE FALL PROTECTION RELATED.

To **avoid working at heights issues** like **Stop Work and Improvement Orders** or worse, a **serious injury**, It's important to perform a review of your **Working at Heights Management Systems**.

Avoid Stop Work Orders on your jobsites! Get the full post and a Working at Heights **Monitoring Checklist** to use with your work crews, [CLICK HERE](#).

Does your workplace safety keep you up at night? Schedule a **free consult with a 1Life Senior Safety Professional!** [CLICK HERE to book!](#)
