

On January 24th, MCAM hosted the 6th Annual Student Chapter Speed Interviewing event, sponsored by SMS Engineering.

MCAM holds this event for the University of Manitoba's Engineering Faculty. The objective of this event is to provide students with the opportunity to enhance their communication skills and begin to form meaningful relationships with stakeholders in the Mechanical Contracting and Engineering Industry. The Engineering Students involved in the Student Chapter specialize in Mechanical, Electrical and Bio-System Engineering.

Ten students attended this year's event at Torque Brewing where they engaged with ten interviewers from six companies during 10-minute long interviews. Beyond networking, the hope is that some of these students would be a good fit for the employer to hire for their busy summer season.

After the interviews, attendees enjoyed a Canadian classic—poutine with their tasty Torque beers. Thank you to the companies and students that make this event a success!

Thank you to the Title Sponsor

Special thanks to these companies:

**BPL Sales
Johnson Controls
MCW
Parsons Plumbing & Heating
ServcoCanada
SMS Engineering**
