FMC Introduces Scion™ Insecticide With UVX™ Technology ***The Next Generation of Pest Management Insecticides***

PHILADELPHIA, June 13, 2019 – FMC Professional Solutions, a business unit of FMC Corporation, has announced the launch of Scion™ insecticide with UVX™ technology. Scion insecticide is immediately available to pest management professionals (PMPs) in 1.33 fl. oz. and 32 fl. oz. containers.

For years, FMC has provided the pest management industry with reliable, high-value brands. Now, Scion insecticide is the next step for both FMC and PMPs. With Scion insecticide, FMC Professional Solutions is proud to provide a new high-performance, value-creating solution.

“We are excited to introduce this innovative technology to our customers and to the pest management industry as a whole,” said Sam Pass, FMC pest control market manager. “With UVX technology’s multiple component formulation, Scion insecticide sets a new performance standard for perimeter pest control.”

Scion insecticide is designed to deliver continuous residual control of pests under the harshest environmental conditions. Scion insecticide is an ideal solution for PMPs looking to provide their customers with control of pests over long service intervals.

About Scion insecticide with UVX technology

Scion insecticide with UVX technology is engineered to provide general insect control for PMPs who face the harshest conditions, toughest pests and the longest service intervals. Scion insecticide features a broad, flexible label for use in and around residential and commercial structures, including applications to ornamental plants and lawns.

Scion insecticide will be included in the recently launched FMC True Champions end-user loyalty program. FMC True Champions is a new end-user program combining Product Rewards, Solution Assurances and expanded Industry Commitments. Enroll by July 4, 2019 and be awarded retroactively on eligible purchases from January 1, 2019.

To learn more and enroll in the program, please visit FMCTrueChampions.com.
