Rollins Acquires HomePro Pest Control

The Aust Group is pleased to announce the most recent acquisition of their client, HomePro Pest Control to Rollins, Inc. HomePro is based out of Chesapeake, Virginia and was acquired as part of an asset purchase agreement. The Aust Group represented HomePro as the exclusive financial advisor on this transaction.

Mickey Ferrell, the owner of HomePro Pest Control, formed the company in 2007. Mickey, his wife Denise, and their son Matthew have grown the business over the last several years into a leading pest control brand in the Virginia Beach market servicing a predominately residential customer base. HomePro has been awarded the Pilot Reader's Choice Award since 2013 and now joins Rollins as part of their award-winning team.

The Ferrell's said, "As we started thinking of selling, we wanted to work with a company who understood pest control, understood the nuances of the specialized services. The Aust Group stood out. Their previous ownership of a pest company was so helpful, we talked the same language. The experience we have had with the Aust Group has been outstanding. From the beginning and right through the closing they were great. We would highly recommend The Aust Group if you are in the market to sell your business. Let them help you!"

With regards to the transaction, Stuart Aust commented, *"I'm delighted for Mickey and Denise Ferrell, and their son Matthew of HomePro Pest Control, as they have built an impressive company over the*

years. HomePro makes a great fit for Rollins due to their team-oriented culture and reputation for customer service in Virginia Beach and the surrounding areas.”

For more information regarding the sale of your business, Stuart can be reached at 772-299-8534 or stuart@theaustgroup.com.
