## **PRESS RELEASE**

### **Thomas Pest Services Kick Off Cerebral Palsy Awareness Campaign**

#### ***Owners' Daughter Lives with CP; Business Raising Awareness & Money***

(Schenectady, N.Y.) – Local, family business [Thomas Pest Services](#) owners Bill Clark and Sarah Thomas-Clark are announcing a month-long campaign to raise awareness and funds for National Cerebral Palsy Awareness Month, in honor of their five year old daughter, Riley.

Riley was diagnosed with right side spastic hemiplegia at age one and a half. While Riley has suffered impairment to her coordination and fine motor skills, she has never let her disability bring her down. Riley is a fighter and attends weekly occupational and physical therapy to help with her condition.

CP is near and dear not only to the Clarks, but a number of other employees at Thomas Pest Services. And to show support, the team will be wearing green tee shirts every Friday for the month of March, as green is the color for CP awareness.

In addition, Thomas Pest Services will be launching a customer contest to help raise awareness and in turn provide free services for the customers who participate. Customers can take a selfie with their Thomas Pest Services technician (or other TPS

insignia), and post it using the hashtag **#gogreen4cp**. Those customers will get a discount on their next service call. Thomas will also be directing customers and followers to the [Jake's Help from Heaven facebook](#) page to help increase donations.

To learn more about Riley's story and how she has inspired Thomas Pest Services, check out <https://www.thomaspestservices.com/cerebral-palsy-awareness>.
