Disclaimer: This information has been prepared to assist workplace parties in understanding their rights and duties under the Occupational Health and Safety Act (OHSA) and its regulations. This information does not constitute legal advice. To determine your rights and duties under the OHSA, please contact your legal counsel or refer to the legislation.

Section 2 – What's New

Chief Medical Officer of Health strongly recommends indoor masking

Earlier this week the Chief Medical Officer of Health strongly recommended the use of masks indoors. Although viruses spread between people in the same ways whether at work or elsewhere, many settings and activities in workplaces have a higher risk of transmission. It is important for employers to have a plan for how they will keep workers and customers safe this respiratory season. The [Workplace Safety Plan Builder](#) can help employers think through some of the COVID-19 risks and create their own plans. Other resources available to help workplaces with their safety planning include [workplace masking guidance](#) and a free, 20-minute recorded [webinar](#).

[Use the safety plan builder](#) | [review masking guidance](#) | [watch the webinar](#)

Ontario training Indigenous people for well-paying jobs in the skilled trades

The Ontario government is investing \$1.5 million in three Thunder Bay training projects to make it easier for people in Northern Ontario to start rewarding careers in the skilled trades and address critical labour shortages in forestry and mining. Over 100 Indigenous people will get practical, hands-on training and apprenticeship experience to prepare for well-paying jobs in the North. These opportunities are part of a record investment of more than \$77 million the province is making this year to get more young people into in-demand skilled trades careers.

[Learn more](#)

Consultation: Portable benefits program

The Ontario government is seeking public feedback as it moves forward with plans to expand benefits like health, dental, prescription drug and vision care to more workers who need coverage. Results from an online [public survey](#) will inform the design and implementation of a proposed [benefits plan](#) that would make Ontario the first province in

Canada to cover millions of precarious workers in sectors such as retail, the gig economy and hospitality. Public feedback is open until December 16th and will help determine the [Portable Benefits Advisory Panel](#)'s recommendations, expected in Summer 2023.

[Take the survey](#)

Consultation extended: JHSC certification training

The public consultation reviewing training standards for joint health and safety committee (JHSC) certification has been extended until December 7, 2022. Training standards for JHSC certification are reviewed every five years to ensure they remain effective, relevant and up to date. If you've completed this training, employ someone who's completed the training or provide this training yourself, we welcome your feedback.

[Share your thoughts](#)

For more what's **new** – Ministry of Labour articles, see: [What's New!](#)

Section 3 – Court Bulletins

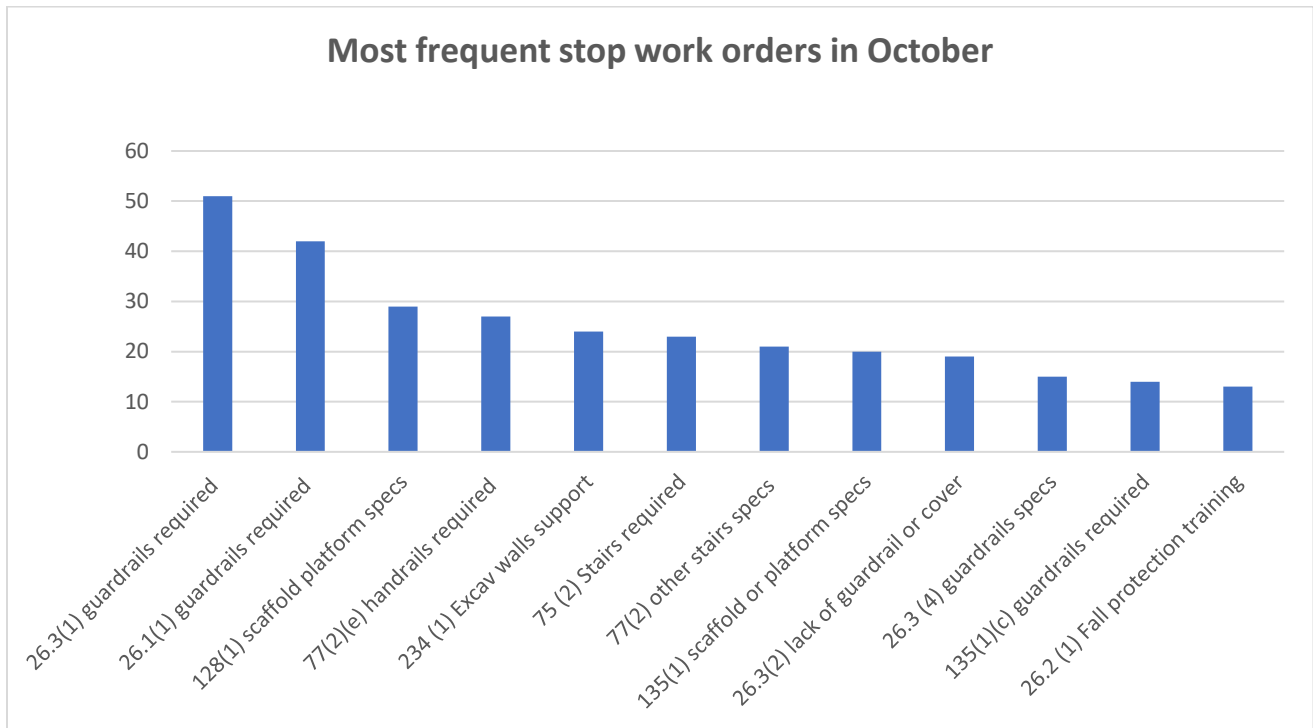

There was no new construction related court bulletin to report this month.

Court Bulletins can be found here: <https://news.ontario.ca/en>

Section 4 – Enforcement Trends – October 2022

MLITSD Construction Inspectors responded to 452 **events*** throughout the province during the month of October 2022. 3,950 **events** have been reported to the construction program of the MLITSD between Jan. 1, 2022, and October 31, 2022.

Inspectors issued **403 Stop Work Orders** in October**. Of those, 268 were issued during a pro-active inspection and 135 were issued during an investigation stemming from an event. Since January 2022 and up to October 31st, **4,407** stop-work orders have been issued during **20,087** field visits.

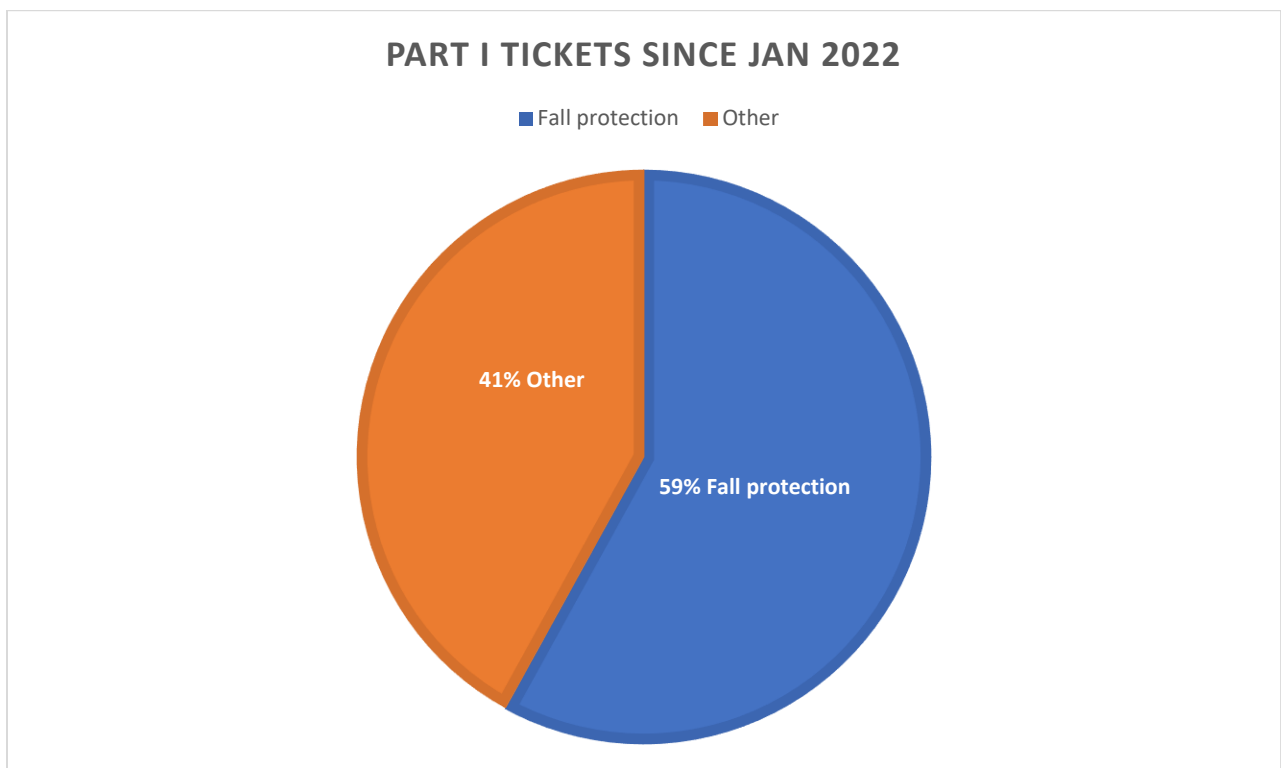

*Events consist of complaints, work refusals, critical injury, fatality, an occurrence, or injury as prescribed

**A stop work order is issued by an inspector where a hazardous condition to workers is presently observed

59 % of all Part 1 tickets issued by MLITSD Construction Inspectors were in relation to either a **lack, or inadequate use, of fall protection equipment.**

Since Jan. 1, 2012, to October 31, 2022, 59 % of all Part 1 Tickets issued by construction inspectors have been for these same fall hazard related contraventions.

Other contraventions where Part 1 Tickets were issued include all other requirements within O. Reg 213/91

Section 5 – Critical Injuries

Year-to-Date Overview and Comparison - Construction Sector

Injury Type	2022 October	2022 January 1 – October 31
Critical	32	314

Injury Type	2021 October	2021 January 1 – October 31
Critical	23	303

NOTE: These figures represent preliminary data and are not to be considered official statistics from the Ministry of Labour, Immigration, Training and Skills Development. Official statistics will be issued quarterly by the Program Analysis, Evaluation and Outcomes Unit of the Occupational Health and Safety Branch of the Ministry of Labour, Immigration, Training and Skills Development. Data are subject to change due to updates in the enforcement database. Only events reported to the ministry are included here. Except for fatalities, event categories in the ministry's data set are based on what was assigned at the time of the initial report to the ministry. The reported event category may not represent what occurred at the workplace
