

Virtual Project Update Information Session

Wednesday, December 1, 2021

7:00 p.m. to 9:00 p.m.

Virtually via GoToWebinar

CBM Aggregates Proposed Caledon Quarry Project Update

BACKGROUND: CBM Aggregates (CBM) wishes to continue to keep the community informed about the project, and, as a result, we are hosting a **virtual** information session to provide an update to the community regarding the proposed project. Under normal circumstances, we would host an in-person information session to provide project updates and to answer questions you may have. However, due to restrictions related to COVID-19, we will be hosting a virtual session instead.

We are interested in hearing from you. This virtual information session is scheduled for **December 1, 2021** and will provide an opportunity for you to hear an update presentation on the project, followed by time to ask questions to CBM staff and their consulting team.

VIRTUAL PROJECT UPDATE INFORMATION SESSION FORMAT & DETAILS

The virtual information session will be held using GoToWebinar. A presentation will be provided at the beginning of the session followed by a question and answer (Q&A) portion where you will be able to submit questions.

Wednesday, December 1, 2021 from 7:00 p.m. to 9:00 p.m.

Presentation: 30 to 45 minutes in duration

A Q&A Portion will be held for the remainder of the session

To register for the virtual information session, please visit the project website: www.cbmcaledonquarry.ca/community/. After you have completed your registration, you will receive a confirmation email with a link to the virtual meeting.

If you have issues registering, please email us at: **CBMCaledonQuarry@golder.com**. Users new to the GoToWebinar platform will be able to attend the meeting directly through a link to the web (via a browser) rather than via an app. Please note that Google Chrome is the preferred browser for the GoToWebinar platform. If you are not able to attend, information presented at this virtual meeting will be available afterwards at www.cbmcaledonquarry.ca/community/.

ONGOING ENGAGEMENT: We have already talked with a number of people regarding the project and continue to welcome comments or questions you may have at any time. We will also keep the community informed as project updates become available. If you would like to be added to our contact list in order to receive future updates regarding the project, or if you have questions about the project at this time, please contact us at:

David Hanratty, P.Geo.

Director of Land & Resources, North America

Project Background: CBM Aggregates (CBM), a division of St. Marys Cement Inc. (Canada), is exploring the feasibility of developing a quarry in the vicinity of Charleston Sideroad and Main Street/Regional Road 136 in the Town of Caledon. CBM initially informed the public in November 2019 and then began technical studies in February 2020 to determine the feasibility of future extraction, and to support the required applications that may be filed for municipal and provincial approvals under the *Planning Act* and the *Aggregate Resources Act*. Consultation with the public and the technical studies have been ongoing since with initial virtual public meetings having occurred in March & April 2021.
