**Construction
Supervisor**
Distance Learning using Zoom

Next class starts soon. Reserve your space today!

Managing and leading is hard. NORCAT's Construction Supervisor training program is designed to build strong and competent supervisors that will lead by example, drive regulatory compliance, enhance productivity, and create a healthy and safe work environment – all day, every day.

The Construction Supervisor program is comprised of the following modules:

- Legislation - Act and Regulations
- Hazard Management
- Project Management
- Incident Investigation
- Emergency Management
- Managing Employees & Communication Skills

Due to current physical distancing protocol, this training will be delivered through distance learning using Zoom. Time will be provided to complete program worksheets.
