

BEHIND EVERY GREAT ENGINEER.

There's always something exciting going on at OSPE. Here are just some of our upcoming [Events](#), [Workshops & Seminars](#), and [Community Events](#) to help keep you in the know!

Events

Engineering Employment Events

Engineering Employment Events are designed to bring together top notch engineering employers and qualified job seekers. You will be able to meet hiring employers, view their organization's job ads and discuss their current opportunities.

April 3, 2019 - Windsor

May 14, 2019 - Mississauga

April 23, 2019

Smart Cities Roundtable

Cities around the world are digitally transforming to improve the lives of citizens. These Smart Cities are made up of complex systems including smart buildings, smart grids, and smart mobility, amongst others. Their promise to transform the urban landscape and address challenges of sustainability and affordability are intriguing.

Join us at our Smart Cities Roundtable co-hosted by Allstream, Cisco, and OSPE, to discuss the opportunities, challenges, and implications of Smart Cities.

June 1, 2019

4th Annual EIT Summit

This event will consist of short, concurrent presentations related to the EIT process and how to launch a successful career in engineering. The day will also offer plenty of networking opportunities.

Sessions will include:

- Understanding PEO's Technical Exam Program
- How to Present Your PEO Experience Record
- Prepping for the Professional Practice Exam
- How to Leverage LinkedIn to do a Targeted Job Search
- and more...

June 18, 2019 •FEATURED EVENT•

The 17th Annual Claudette MacKay-Lassonde Forum

This full day event will explore the importance of professional networks, personal branding, mentorship vs. sponsorship, and the role of men in the advancement of women. During the second half of the day, all attendees will have an opportunity to discuss a topic of interest with a smaller group and connect with leaders within the engineering community.

Workshops & Seminars

PE301 - Preparing Your PEO Experience Record

This course focuses on how to write and communicate your “engineering stories.” Templates to help you organize your stories will be used in this workshop. As a follow-up to this exercise, participants are invited to discuss their Experience Record content in a follow-up coaching conference call three weeks after the workshop.

April 26, 2019 - Markham

June 8, 2019 - Ottawa

EV100 Skills and Jobs in Ontario's Environment Sector

In this 6 week, 48-hour program, participants have classroom instruction in two 3- hour sessions twice a week (36 hours -Tuesday and Thursday afternoons) plus 2 hours of online work per week (12 hours). Participants focus on current job trends and issues in Ontario’s environment sector and how to adapt their employment skills to pursue work in this sector. Through classroom and online resources, one-to-one career coaching, and hands-on practice of employment skills, participants will improve their workplace communication and employment skills, while learning about environment sector job trends, workplace culture, employer expectations, and self-marketing to potential employers.

April 30, 2019 - June 6, 2019 - Mississauga

Please contact Judith Wright at jwright@ospe.on.ca for more information.

PE400 - Exam Skills Preparation for International Engineering Graduate (IEGs)

This 33-hour program is specifically designed for international engineering graduates (IEGs). It provides a foundational background on the topics addressed in the Professional Practice Examination (PPE) as administered by PEO in Ontario. The PPE must be taken and passed as a requirement to become licensed as a Professional Engineer (P.Eng.) in Ontario.

May 8, 2019 - July 17, 2019 - Toronto

PE402- Preparatory Course for the Professional Practice Exam (PPE)

OSPE's most popular course explains the professional practice and legal concepts and issues for the engineering profession to help you prepare for the examination and increase your chances of success. OSPE's PPE Preparation courses are designed to help applicants for P.Eng. licensure in Ontario prepare effectively for the Professional Practice Exam (PPE), as administered by Professional Engineers Ontario (PEO).

[July 2, 2019 - August 6, 2019 - Distance Learning](#)

[July 6, 2019 - July 7, 2019 - Mississauga](#)

TC102 - Business English for ESL Learners

When English is not your native language, you may encounter additional barriers to workplace success. Fluency in oral and written English is key to moving up the corporate ladder and achieving your business goals.

This multiple session course will hone your diverse business writing skills. It ensures that you are able to express yourself efficiently and confidently in English, the language of business. With a series of short, 20 minute, business context based assignments, our practice over time approach guarantees lasting outcomes.

[Distance Learning](#)

OSPE Job Search Workshops

We offer four workshops through distance learning:

- Resume that gets results
- Acing the engineering interview
- Making LinkedIn work for you
- Beyond the traditional job search

Each [workshop](#) is FREE for OSPE members.

Community Events

The P.Eng. License: How OSPE Supports Your Journey

Join OSPE for a one hour free webinar in which we'll uncover the steps of PEO's application process and share some best practices, and discover how OSPE can support you as you work your way towards your P.Eng. licence.

March 26, 2019

May 21, 2019

April 23, 2019

June 25, 2019

OACETT Toronto East Chapter and OSPE Mix and Mingle

The Toronto East Chapter of OACETT & OSPE are joining forces to host a Mix & Mingle, to celebrate women in engineering, technicians, and technologists. This two hour event will start with an interactive session lead by a special Guest Speaker (information to be shared soon), followed by the networking portion of the night.

March 15, 2019

2019 Leadership Conference for Women in Energy

The goal of this event is to help professionals advance their careers in a traditionally male industry by providing insight into key energy trends and skills for personal and professional development. Join Canada's most successful women energy leaders as they share their industry knowledge, strategies and experiences on how to accelerate positive organizational change and personal growth.

April 16, 2019 - April 17, 2019
