Program Directors

Geza R. Banfai
McMillan LLP

Yonni Fushman
Executive Vice President & Chief
Legal Officer, Aecon Group Inc.

Howard Krupat
DLA Piper (Canada) LLP

Location

Osgoode Professional
Development
1 Dundas St. W., 26th Floor
Toronto, ON

Get Practical Tips & Strategies in areas including:

- Project delivery models used in Canada and when to use them
- P3 arrangements and the roles of key participants
- Advanced issues in construction contracts, including assessing limitations and negotiation strategies
- Bidding and tendering principles, special issues and emerging trends
- Sweeping legal reforms rolling across Canada, including prompt payment and adjudication regimes
- Construction project challenges from various stakeholder perspectives including: procurement authority, lender, project manager, designer, subcontractor and utility provider
- Insights to succeed in dispute resolution, including the role of mediation, arbitration and litigation
- Recurrent issues in construction claims, including delay and impact claims, unanticipated site conditions, changes of scope, extras, productivity, and limitations
- Health & Safety, Labour, Insurance and Bonding

Who Should Attend?

- Owners and developers
- Builders and construction professionals
- Architects
- Engineers
- Project Managers
- Procurement professionals
- Construction industry consultants
- Contract Managers
- Mediators and arbitrators of construction disputes
- Construction, municipal, real estate or procurement lawyers
- In-house counsel
- Anyone engaged with construction projects, whether as a project sponsor, project manager, construction manager or other consultant

The Osgoode Certificate in **CONSTRUCTION LAW**

5 Comprehensive Days of Targeted Learning

- Classroom setting to enhance participation
- Interactive instructional sessions
- Expert demonstrations and panel discussions
- Learn-by-doing skills workshops

Back for its 8th year! Today's construction projects are highly complex with numerous challenging risks and obligations to all stakeholders. A comprehensive understanding of key issues and potential liability exposures in this high-stakes area is essential. This in-depth, practical 5-day Certificate course, developed for both industry and legal professionals, covers what you need to know from contract formation to dispute resolution.

Learn from a truly exceptional faculty of 30+ construction specialists who are fluent in the issues unique to construction in Canada. You will develop a thorough understanding of the core legal issues impacting construction projects today and emerge better equipped to effectively manage risk and minimize exposure to costly liability.

Practical and Experiential Learning

This program will focus on practical, real world situations and provide ample opportunity for hands-on learning, questions and class discussion. In addition to instructional sessions, you will benefit from small group, learn-by-doing workshops where you will have an opportunity to apply what you've learned. Your understanding of project delivery models will be reinforced during an interactive "choose your model" workshop, and you will negotiate a construction contract "live" from the perspective of owner or contractor.

Drawing on the expertise and experience of outstanding faculty of senior legal and construction specialists, including:

Agenda

MODULE 1

October 29, 2018
9:00 am - 5:00pm EDT
Project Delivery Models

Project Delivery Models

A detailed and practical analysis of the project delivery and contracting models in common use in Canada. Discussion will include risk profile considerations and other determinants favouring each method in particular circumstances. Includes: Design-Bid-Build, Design-Build, Construction Management and EPC/EPCM models.

Public-Private Partnerships (P3s)

Essential guidance on P3 arrangements as used in Canada, including explanations of various transaction structures and the different risks and opportunities that distinguish P3s from traditional delivery models.

Integrated Project Delivery (IPD)

A detailed and practical analysis of IPD, the cutting edge approach to construction project delivery. Considerations of the risk profile and other determinants favouring this method in particular circumstances will be discussed.

Interactive Workshop: Project Delivery Models

The day will conclude with an interactive “choose your model”, small group workshop where you will apply lessons learned to typical scenarios. You will have the opportunity to demonstrate the considerations that must be evaluated and balanced to choose the right project delivery model for your contract and get feedback from acknowledged leaders.

Special Luncheon Address:

Zey Emir, Chair, Canadian Construction Association, and President, Revay and Associates Limited

Faculty

Geza R. Banfai, McMillan LLP

Ian Bendell, DLA Piper (Canada) LLP

Richard Wong, Osler, Hoskin & Harcourt LLP

MODULE 2

October 30, 2018
9:00am - 5:00pm EDT
Construction Contracts

Key Terms in Construction Contracts

Examine the most significant risk transfer and legal points in construction contracts, including indemnities, liability caps, schedule delay, warranties and *force majeure* provisions, as well as additional considerations and complications in subcontracts. You will also learn about the application of recent landmark legal decisions to construction contracts.

A Practical Guide to Navigating the Construction Contract

Building on the Key Terms in Construction Contracts session, you will learn “how” to navigate your construction contract as a “rule book”, including key directional points and pivots. Get expert insights, practical advice and risk management tools to avoid unexpected risk transfer, disputes and claims.

Interactive Workshop: Negotiating Construction Contracts

Contracts are not simply a reflection of legal principles – they reflect a business deal and the risk allocation that each party is prepared to accept. This one-of-a-kind, innovative small-group workshop, will allow you to negotiate the key terms of the construction contract, working through a variety of issues that commonly emerge, from various types of delays to construction disputes.

Special Luncheon Address:

Clive Thurston, President, Ontario General Contractors Association

SAVE THE DATE!

Post-Program Networking Event (optional).
Time & location to be announced.

Faculty

Yonni Fushman, Executive Vice President & Chief Legal Officer, Aecon Group Inc.

Charles Todd, Associate General Counsel, Aecon Group Inc.

Plus! Expert facilitators will provide you with live guidance and personalized feedback during the small group, interactive workshop

MODULE 3

October 31, 2018
9:00am-5:00pm EDT
Bidding & Tendering, Claims & Dispute Resolution

Bidding and Tendering: *Fundamental Principles*

Learn the basic principles governing the Canadian law of bidding and tendering, including the origins and evolution of the Contract A/Contract B paradigm and the principle of compliance in this ever-evolving area of law. The session will include a review of the formative legal authorities and new developments.

Bidding and Tendering: *Advanced Issues*

You'll get an in-depth review of advanced problems impacting bidding and tendering, including the treatment of privilege and discretion clauses after *Tercon*, judicial review as a remedy, and emerging issues and trends, including pitfalls to watch out for.

Construction Claims: Extras, Change of Scope & Productivity, Delay and Impact Claims

In-depth analysis of common construction claims across two sessions. The first session will focus on the legal issues underlying construction claims, including recent developments in the law of notice. The second session will focus on productivity, delay and impact claims, including causes of lost productivity, quantifying the loss, critical path analysis and limitation issues.

How to Succeed in Dispute Resolution

Project disputes are increasingly complex. This session will cover the basics of mediation, arbitration and litigation, as well as the mechanics of settling a case. Limitations and evidentiary issues will be discussed, including “lessons learned” and tips to avoid common pitfalls. You will have an opportunity to apply your learning and reinforce key concepts during an interactive exercise.

Special Luncheon Address:

Shelley Babin, Vice President, Law & General Counsel, Ontario Power Generation

Faculty

Glenn Ackerley, WeirFoulds LLP

Geza R. Banfai, McMillan LLP

Helmut Johannsen, Singleton Urquhart Reynolds Vogel LLP

Rick Moffat, Managing Director, Berkeley Research Group, LLC

MODULE 4

November 1, 2018
9:00 am-5:00pm EDT
Liens, Reforms & Construction
Project Perspectives 360°

Lien Reform, Prompt Payment & Adjudication in Canada

Expert faculty will cover the major legal reforms – in place or anticipated – which will create sweeping changes to the Canadian construction industry. This session will provide a background and examine the key lien reforms, new regimes including prompt payment and adjudication, and provide crucial advice and strategies to help you navigate the changes and make the new processes work for you.

Panel Discussion: Prompt Payment & Adjudication in Canada

Moderated by an Advisory Panel member in Ontario's *Lien Act* Reform initiative, industry specialists will explore the wave of prompt payment and adjudication legislation rolling across Canada and highlight the key business or operational implications of the most significant aspects of reform, and share their practical tips & takeaways. Panelists representing the owner, general contractor, subcontractor and insurance/risk perspectives, will engage in a lively, interactive discussion.

Construction Project Perspectives 360°

This engaging round table discussion will dissect key construction project challenges from a cross-section of stakeholders, with expert insights, tips and strategies on real-world issues from procurement to dispute resolution and also highlight emerging issues. Perspectives include the lender, procurement authority, project manager, designer and utility provider.

Negotiation Demonstration: Key Terms in Design Contracts

You will observe legal and industry specialists demonstrate key design contract negotiation strategies and best practices. Faculty will break-down the key components and critical factors to consider including contractor concerns, designer concerns, the negotiation plan, how to secure pre-agreements, key contractual issues to watch out for and a final debrief and interactive discussion.

You will emerge from this session better equipped to negotiate effectively with professionals on your next design project.

Special Luncheon Address:

Phil Verster, President & Chief Executive Officer, Metrolinx

Faculty

Michael Atlas, Associate General Counsel, Toronto Transit Commission

John Davies, John G. Davies, Architect, Incorporated

Annik Forrester, McMillan LLP

Franklin Holtforster, President & CEO, Corporate, Colliers Project Leaders

Howard Krupat, DLA Piper (Canada) LLP

Kathryn Lack, General Counsel, Maple Reinders Group Ltd.

Tim Murphy, McMillan LLP

Andrew O'Brien, Director – Surety Risk, Travelers Insurance Company of Canada

Marcia Oliver, Certified Specialist, Construction Law, Advocates LLP

Paul Raboud, Chair, Ontario General Contractors Association, and Director, Bird Construction

Kevin Radford, Assistant Deputy Minister, Real Property Services, Public Services and Procurement Canada

Conrad Sheppard, Director, Corporate Governance & Commercial Legal Services, Toronto Hydro

Eric Tilley, Senior Vice President, Legal Services, Infrastructure Ontario

MODULE 5

November 2, 2018
9:00am-5:00pm EDT
Top Five Issues in Critical Areas of Law that Affect Construction

Occupational Health and Safety Issues in Construction

An overview of fundamental cross-country principles and liabilities of the various parties in the construction process under occupational health and safety legislation, including constructor liability and the appropriate responses to accidents and investigations.

Surety Bonding

A comprehensive review of the essential role of the surety in the construction process, including: the underlying principles of surety bonding; the role of the surety, the principal and the obligee; the types of bonds typically used in construction; and the legal and practical aspects of asserting claims and defences under bonds.

Construction Insurance

Learn about specialized insurance issues particularly relevant to the construction process, including key cross-country principles and a review and comparison of the differing types of insurance available, considerations of risk assessment and the proper choice of insurance in differing project delivery scenarios.

Construction Labour Law

Nothing affects the day to day execution of construction projects more than labour law. An expert in the field will provide an overview of key topics in construction labour law across Canada, including getting bound (the law of certification, union raids and voluntary recognition); strikes, lockouts and picketing; accredited and designated employer associations; grievances and arbitration; and jurisdictional disputes.

Special Luncheon Address:

Harvey Kirsh, Arbitrator, Mediator, Adjudicator, Kirsh Construction ADR Services Ltd

Faculty

Geza R. Banfai, McMillan LLP

Daniel Boan, Borden Ladner Gervais LLP

Richard Charney, Norton Rose Fulbright Canada LLP

CCA: This program has been accredited by the CCA for 5 credits toward Gold Seal Certification's education requirement.

LawPRO: This program is approved for LawPRO Risk Management Credit.

OsgoodePD programs may be eligible for CPD/MCLE credits in other Canadian and US jurisdictions. To inquire about credit eligibility, please contact cpd@osgoode.yorku.ca.

"The program was outstanding and so useful for my practice as an expert witness. The selected faculty, topics and interactive modules were impressive. I have attended numerous conferences, events and courses related to the Construction industry/litigation this year and this program was by far greater than the others combined."

Ben Dae, Ph.D, P.Eng, Senior Forensic Consultant, Rimkus Consulting Group, Inc.

"Content is exceptional, thorough and interesting."

John Hughes, Construction Superintendent, Premier Building Services

"The program provided tremendous value - the speakers were both practice and industry leaders and the material was core to the issues. Solid front to back. Nice to have practical application and discussions to drive home thinking. The mock negotiation scenario was engaging, fun and challenging. It really helped to crystallize the risk allocation issues in contracts."

Jesse de Jager, Conservation Lands Planner, Credit Valley Conservation Authority

"The program was excellent and it is impossible to walk away without vastly improving your knowledge and understanding of construction law. The instructors were exceptionally knowledgeable and the segment content was informative and useful in my role as in-house counsel."

Kendall Wilde, Legal Counsel, Babcock & Wilcox Power Generation Group Canada Corp.
