

GUELPH, ON, FEBRUARY 22, 2022 – Kiwi Newton Group Ltd. is pleased to announce the successful completion of the NAMAHF (New Adult Mental and Addiction Health Facility) Parking Structure. Implementing the company's [CANADACAR](#) parking structure system, the Newfoundland team completed the designing, manufacturing, and construction of this five-level, 297, 116.22 sf gross floor, 1,000 stalls, 3-bay parking structure was cleared for occupancy in just 13 months.

This design-build approach was aggressive in process, with ground officially breaking on the first week of October 2020 and the garage able to allow parking by October 26, 2021. This parking structure opened to the public on November 1, 2021, to support the new mental health and addictions hospital located in Saint John's, Newfoundland. "It took the company as a whole to make this a success," states Hanny Elsaifi, Project Manager of the Newfoundland team. "I am honoured to have had the opportunity to work with such a great bunch of individuals." This mental health and addictions hospital is scheduled for completion in late 2024 and is part of the [Provincial Government's](#) commitment to transform how mental health and addictions services are delivered within the province and across the country.

The completion of this project showcased how Kiwi Newton Group's prefabricated CANADACAR parking structure system is changing the perception of what is possible to achieve in the construction industry, resulting in fast turnaround, high-quality structures with minimal onsite disruption. "I would like to give a big thanks to everyone involved in all aspects of the project and the support staff for making this possible. The field and project management staff have worked extremely hard to pull everything together and meet all deadlines," said Cam Krajcik, Vice President of Design and Engineering at Newton Group Ltd. "It is a great achievement to deliver a project of this size in the timeline we did, especially considering the logistics involved with shipping to Newfoundland and all of the supply chain and subcontractor issues encountered as a result of the pandemic."

"Congratulations to the team for achieving this milestone. You have shown that with determination and focus, great things can be accomplished," Ed Newton, President & CEO of Newton Group, said to his team, "Kiwi Newton has a reputation of delivering on-time and on-budget with high-quality standards. The Newfoundland team certainly upheld that reputation."
